Dear Friends,

Thank you for your interest in our software.

The Cosmic Patterns Software team is dedicated to developing the highest quality and standard in astrology software. Requests and suggestions from our customers drive our software development. Therefore, you, our clients and customers, are also part of the team. Without your support and participation, the work would not be possible.

Astrology has evolved over thousands of years in many cultures and there are a seemingly endless number of techniques, theories, applications, and features that can be added to our programs. If you have any technique in mind that is not in our programs, let me know.

We take special pride in providing excellent customer support, and we work very hard to create not only a beautiful, easy to use, thoroughly debugged program at a reasonable price, but also to support every customer as well. Most customers prefer to use e-mail to contact us. Our email address is Kepler@AstroSoftware.com We answer e-mail within 1 business day. OTHER FORECAST FEATURES

Suppose that you are an astrologer and you would like for your clients the following information for the coming year: Outer planet transits to the natal chart, secondary progressed to natal, secondary progressed to progressed, and solar arc to natal aspects. Kepler's Time Line Format allows you select all of these forecast methods and see a graphic time line so you can quickly and easily see what astrological influences are in effect. Selecting which forecast methods you want is as easy: just check the methods you want. Kepler also allows you to produce simple text listings of transiting and progressed aspects but most astrologers prefer the elegance, simplicity, power, and flexibility of the Time Line Format.

OTHER FORECAST LISTS

- ★ A listing of dates when the secondary progressed planets enter a new zodiac sign or turn Rx or direct can be produced.
- ★ A listing of dates when transiting planets enter zodiac signs and a list of void of course moon times can also be produced.

- ★ Specify which aspects to use to determine the time that the Moon is void of course.
- ★ Produce a list of dates and times when planets turn Rx or direct.
- ★ And much, much, more!

TIME LINE FORMAT

Calendar date is printed periodically so that while looking through the printout, you can see what the dates are without needing to scroll up and down repeatedly. The date when the aspect is exact appears in the time line printout.

The **Time Line Format** allows you to select as many forecast methods as you like. For example, you can select Transit-to-Natal, Day-for-a-Year Progressed to Natal, Day-for-a-Year Progressed to Progressed, and Solar Arc Progressed to Natal if these are the forecast methods that you prefer to use. After making your selections, you can scroll through the list of transits and progressions without needing to jump between printouts.

The time line format has the advantages of allowing you to quickly and easily see what astrological influences are occurring, when they occur, and how strong they are at any time.

Selection of Forecast is very easy: A menu that allows you to jump quickly to different kinds of forecasts available is provided.

Other Time Line Format Feature: A thin red strip is displayed along the bottom of each time line bar to indicate retrograde and/or a green strip to indicate direct motion of the transit or progressed planet.

Option to display the house position of planets and/or zodiac sign or exact position of the transiting and natal planets along the left side, next to the aspect that occurs.

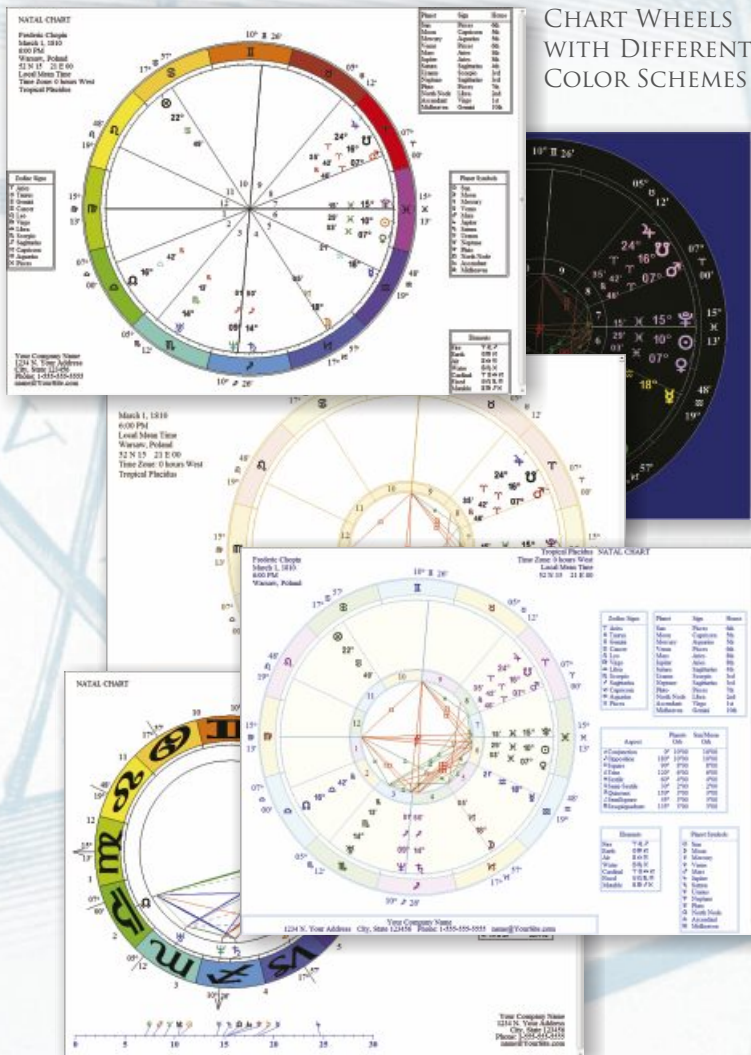

Also included is an option to display planet positions (time line & tran-to-natal) either with sign only or with degree-sign-minute.

ART WHEELS

Art Wheels are beautiful chart wheels. Our art wheels were designed by graphic artist Paul Guess. The planetary positions are placed within these exquisitely beautiful chart wheel images. These chart wheels are perfect for framing. They are best printed on a color printer. For an incredibly stunning chart wheel, print an art wheel on glossy paper with your color printer.

There are 30 art wheels to choose from, and there is a portrait (normal) and landscape (sideways) version of each art wheel. You also have a choice of purchasing an additional 138 Art Wheels Pastel collection.

In order to make the art wheels as beautiful as possible, the ability to add shadowing to the planetary information in the chart wheel has been added. This adds extra pizzazz to the art wheel.

Create your own report:

If you wish to design and develop your own interpretive report, you can do this in Kepler. There are two parts to this process: (1) Design the report, and (2) Write the interpretations.

Combine different transit calculations:

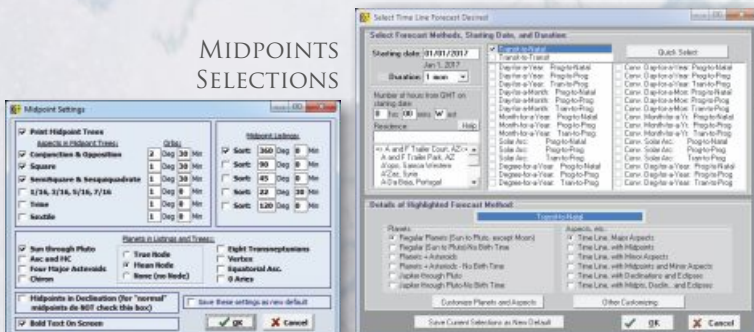

Kepler provides many formats for viewing transit and progressed listings, and the most popular one is time line format. You can quickly select different kinds of forecast methods (for example, transit-tonatal, progressed-tonatal, tertiary progressed-to-progressed, etc.) with different selections of planets and aspects for each one and see all of this information beautifully and clearly presented on your screen or printed out.

E-mail the chart wheels, interpretive reports, and other printouts directly from Kepler:

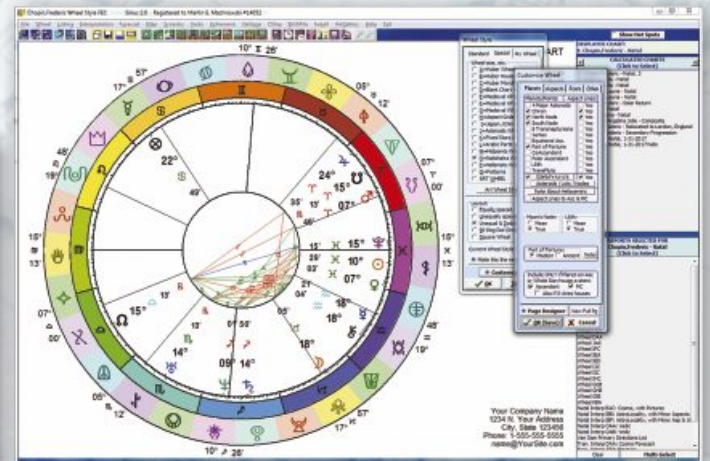

Note that you must have an Internet Service Provider (ISP)

for this function to work. Most of the free services and even a few that are not free (most notably AOL or MSN) will not work. Only services that provide an outgoing mail server name and user ID will work with Kepler's e-mail feature. DSL and cable connections are compatible with Kepler emailing capability. Kepler will also send your files to another program, such as Paint, or Notepad and you can e-mail from there. Many users prefer to print graphics to file and then place them in their e-mail message anyway as an attached file.

Multi Select Printouts:

The Multi-Select Printouts feature allows you to select several printouts very quickly. For example, suppose that you very often select a Natal Chart Wheel, Cosmo Natal Report, and Cosmo Forecast Report for clients. You can save this group of printout selections and call it back so that you do not need to select these printouts individually in the future. Some users select the "Multi-Select Printouts" button primarily as a way to select the printouts that have been selected from one entry for another entry.

Easily create your own group of charts by creating your own category.

ATLAS

Kepler comes with a complete atlas of the world with over 360,000 cities and the most up-to-date time zone and daylight savings time tables. This is absolutely necessary in order to calculate a chart accurately!!!

Easy-to-use: Type in upper or lower case, see cities as you type. Narrow the search to a specific country or state if desired. An option to purchase an additional Atlas is also available, that is the "Mega Atlas".

KEPLER ASTRO FONTS

Kepler has 4 complete sets of TrueType astrology font. This astrological font can be used in your word processing program. Instead of writing out "Sun in Aries", "Moon in Sagittarius", "Mercury in Taurus", etc., you can instead write ☉ in ♈, ☾ in ♏, ♁ in ♉, etc.. Use either Pluto glyph whenever you want: ♇, ♇♁, or ♇♁♁.

Kepler comes with the following interpretive reports:

Cosmo Natal	Major Life Themes Report
Cosmo Compatibility	Live Mini Reading Multimedia Intpn.
Cosmo Forecast	Profile Scores
Harmonic Highlights	Nakshatras and Dasas
Numerology	AstroLocality Report
Lunar Phase Report	Vedic Insight Report

★ The **Live Mini Reading** is very entertaining not only for you, but also for friends and family. The Live Mini reading is an interpretation of the birth chart based on sophisticated ideas in harmonic astrology and cosmobiology. The interpretations are clear and straightforward. The interpretations are spoken while you view gorgeous graphics and listen to background music! Liven up your next party or get-together by letting your friends watch this multi-media presentation. Even skeptics are amazed when they see and hear this reading.

Fortunately, you do not need to know what a harmonic triangle is or a midpoint structure to appreciate the Live Mini Reading.

★ **Almost all of the Cosmo Reports are available in other languages** such as English, Spanish, French, Portuguese, German, Norwegian, and Japanese.

★ **Interpretations of planets in degrees according to 11 different authors.** Sabian Symbols are also included, but there are also other symbolic interpretations of degree meanings by other astrologers. This report provides you the degree meanings of each planet according to 11 different authors.

★ **Harmonic Degree Meanings:** This report gives degree meanings and the harmonic sign influences that are present in the book Astrology for the 21st Century by David Cochrane.

★ **A Numerology Report can be produced:** This report analyzes the vowels, consonants, and total score of the person's name and/or birth date. Many years ago this report was the Athena Numerology Report.

EDUCATION

Astro Encyclopedia is a very comprehensive and thorough astrological reference work built into the Kepler program. Diagrams and images are included to help you better understand advanced subjects such as midpoint structures as well as the basics. Astro Encyclopedia also provides a huge glossary of terms and excellent articles on many topics.

Health Encyclopedia: The Kepler Health Encyclopedia at the current time does not contain very much astrological information. There are 3 reasons why this health encyclopedia is part of Kepler: (1) Astrology is an alternative system to more conventional systems of psychological analysis. Herbalism is an alternative system to more conventional systems of health care. (2) In ancient times astrology was widely used to assist in diagnosing health problems and prescribing therapies. The close relationship between medicine and astrology in ancient times encourages us to continue studying how astrology can be applied to health related issues, and a prerequisite for this study is having information available on health issues and health care. (3) Having this information easily available with Kepler is very convenient and useful.

OTHER FEATURES

Page Designer: This page is very handy for editing a chart wheel. You can see the changes that you are making as you click on any menu from this box. From this menu, you can add planetary tables, move any tables anywhere on the page, resize the wheel (change the wheel's radius), change the wheel's orientation to horizontal or vertical position on the page, etc. As you make the changes, you can see your changes on the screen.

Planetary Pitches (Music of the Spheres): Kepler can play the frequency of each planet based on a theory that the motion of a planet at any given time is similar to the motion of a vibrating string, and by transposing this frequency by octaves until it is in the audible range, one can hear the sound of the planet.

Compatibility Profile Scores: You can produce a list of compatibility scores between two people. You can select Romantic Compatibility or Friends Compatibility. You can change the astrological factors and weighting values used to create the compatibility scores.

AstroSignature and Electional Forecast: This research feature allows you to see a graph of an upcoming time period for one chart or for the transiting planets in the sky. You can obtain a line graph of athletic performance for the next 6 months, for example. This allows you to pick the best date for an athletic competition for this person by simply looking at the graph. Electional Astrology is a method of picking the best time for business success, accident proneness, etc. and new events that you are about to pursue.

Quick selection of current transit: A Transit Chart is usually a natal chart. Creating a transit chart wheel from Kepler is quite easy. However, make sure that the date on your computer is set to a correct date.

Easily Create Planet Stations and Zodiac Sign Ingresses Listing: Astrologers may want to know when Mercury is retrograde, or when other planets are retrograde. You can produce a listing of times when planets turn retrograde and direct. You can also produce listings of when planets enter a new zodiac sign.

Moon: Void of Course, Ingresses, Phases: Listings of basic Moon information can be produced, such as when the Moon enters a new sign, becomes void of course, and the times of the Moon phases (New Moon, Full Moon, 1st quarter, and 3rd quarter) occur. You can also include the times of aspects to the Moon.

Easily Convert Julian Calendar (Old Style) to Gregorian Calendar (New Style) Date: The Kepler program always uses the New Style Calendar. When you enter in the data entry screen and that date is before about 1750, Kepler will prompt you to ask you if the date is in the Old Style Calendar and if you want to convert it to the New Style Calendar. Because you will be asked in the data entry screen if you want to convert an Old Style date to a New Style date, you do not need to use this screen to convert dates.

Calendar and Calculator: Kepler comes with a Calendar and calculator. This option is handy when you want to view a calendar or use a calculator while using the Kepler program.

Health Encyclopedia: The Kepler Health Encyclopedia at the current time does not contain very much astrological information. There are 3 reasons why this health encyclo-

EASE OF USE

- ★ Data Entry is very easy to do. While you enter the person's name (or place of birth), a list of names (or places) to select from automatically appears.
- ★ Handy features like the ability to remove the listing of famous charts so you can see only your own data.
- ★ Just do what you need to do: for example suppose you need to change the spelling of a person's name that has been saved on disk; all you do is change the spelling and the database is updated for you. Removing data is just as easy.
- ★ **Entering the Person's name and birth data:** You can see at the top of the screen whether you are reading All Data, Your Data, Famous, and Third party. Two mouse clicks and you have changed which data you are accessing, and there is no slowing down of the speed at which names are read from disk.
- ★ **Entering the place of birth:** you can simply begin entering the place, and then you also have the option to narrow the listing of cities to one country or state, a useful feature when you are unsure of the correct spelling.

- ★ **It is always easy to read in the place of birth:** Just start typing and the cities appear. But what if you are having difficulty finding the place? Select the state or country first if you like. **Entering a place is not case sensitive!**
- ★ Windows displaying wheels, interpretive reports, and AstroMaps can be viewed simultaneously on the screen. You can move between them or resize them, send them to file or print them.

Animations and Dynamic Interactive Features

View a wheel, BiWheel, TriWheel, QuadWheel or multiple wheels and watch planet positions move dynamically or as you click on arrows to move the charts forward or backward in time. New interactive features for quickly seeing aspects and conjunctions to fixed stars are a big help when doing horary and electoral astrology.

Medieval, Hellenistic & Other Listings

The Partile and Refraction Table is very helpful for classical horary astrology because you can see exactly when aspects become exact, or refraction occurs. The presentation of useful information like the Temperament Table and the ability to obtain advanced calculations like Compound Almutens and the Alcochodon makes Sirius an excellent program for the classical astrologer. Medieval wheel, including a dignities table, conjunctions of planets to fixed stars, etc. Sirius can also produce a list of Hellenistic

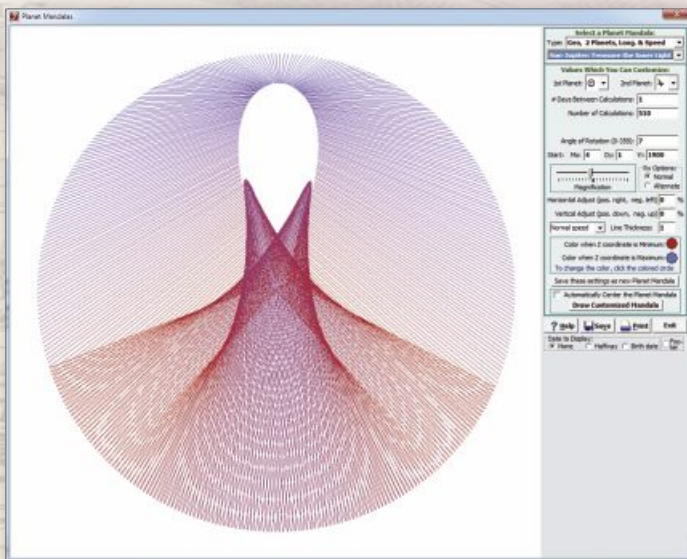

influences, with the flexibility to include from among the following items: Dignities and aspects to fixed stars, Dignities of Hellenistic lots and the aspects of the lots to fixed stars, Dwadasamsa and dodekatamoria of planets, Dwadasamsa and dodekatamoria of the lots, and Ascensional times of the zodiac signs.

The features can be selected easily, with, for example, the ability to right-click to quickly bring up the settings, click a few times to change selections and press the OK button to view the new time lord report.

PLANET MANDALAS

Profecion

In Sirius you can produce a list of Profecion aspects.

Electional & Astrosignature Forecast based on Medieval Rules

In Sirius you can produce an Astro-Signature Forecast Graph and an Electional Astrology Graph based on Medieval rules, such as planet and Asc. dignities, rulers of houses, Void of Course Moon, planetary hour, and conjunctions to fixed stars.

Planetary Hours Table

A Planetary Hours Table can be produced in Sirius. This is a nicely formatted report, with changes in daylight saving time detected so that the times are very accurate. You can also produce a Planetary Hours Table and Rising Sign that shows both changes in planetary hours as well as changes in the rising sign.

Void Of Course Listing using the Ancient Rules

A Void of Course listing that uses an ancient rule that the Moon is regarded as being Void of Course only if it enters the next sign unaspected has also been added. Medieval orbs and moiety rules are used so that this report is produced in accordance with the medieval rules.

Primary Directions List

The Primary Directions list of planet to angular house cusp influences can now be calculated based on the calculations of Ptolemy, Cardan, Naibod, Placidus, and Kepler, as well as a modern variation discussed by Kolev and Cochrane. Kepler has only a method used by De Luce and by Van Dam, and these are also available in Sirius.

Huber Planetary Strengths

A list of Planetary Strengths according to the Huber system can be produced.

SUN-URANUS

MERCURY-VENUS

SUN-MOON

Huber Age Point Listing

Produce a Huber Age Point listing which shows the dates on which the Age Point forms aspects, enters new houses, and reaches the Huber Invert Points and Low Points.

Huber Patterns

Select Huber patterns which include the complete set of patterns used in Huber astrology, including some of the more complex Huber system patterns.

Fixed Star Astrological Names

Include the astronomical name of the fixed star in listing as well as the astrological name. The astronomical name indicates the constellation that the asteroid is in so that you know the constellation of the fixed star.

Graphic Ephemeris

The Graphic Ephemeris is another forecasting tool that many astrologers use. Some of the improvements that have been made to the Graphic Ephemeris are; the ability to display midpoints in the graphic ephemeris.

Astro Calendar

Sirius includes a beautiful AstroCalendar. The AstroCalendar provides a rich set of options that allows you to customize the AstroCalendar in many ways. The Personal AstroCalendar includes the times that transit-to-natal planet aspects occur. On the other hand, you can produce a calendar that is suitable for the general public by producing the Mundane AstroCalendar, which includes only mundane influences like times that planets change signs, transit-to-transit aspects, sunrise and sunset, and Moon void of course times. You can even produce a calendar that includes both Personal and Mundane influences. The calendar also can include holidays, and you can select which holidays you wish to include on the calendar from the list that is provided.

Rectification (automatic)

This Rectification is elegant, automatic, flexible, and powerful. We used some of the computing power that we developed for AstroSignatures to create the new Rectification feature, and the result is spectacular. Simply

enter the dates of life changing events in your life then Sirius will do the chart rectification process for you automatically.

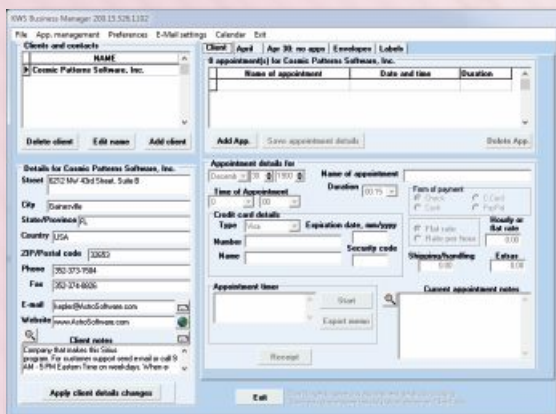

Animated Sky Map

In Sirius the constellations can be displayed, you can zoom in or out on the Sky Map to see greater detail, and you can also animate the Sky Map to watch it move! This beautiful Sky Map is a fabulous tool for teaching as well as for exploring how the planets are actually placed in relationship to particular fixed stars and constellations. You can zoom in or out and animate the Sky Map from the point of view of the horizon, ecliptic plane, or equatorial plane and you can view the sky plotted in a circle or rectangular graph. Smaller fixed stars can automatically appear as you zoom in, making the Sky Map consistently beautiful and useful at any level of detail.

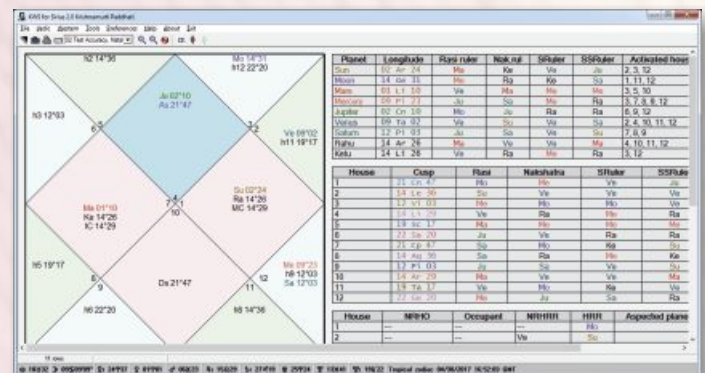

Vedic

Chakras, Vargas & Tables, Vedic Natal Interpretation and Listing, Dasas & Bhuktis, Panchanga, Muhurta, Ashtakavarga, Gochara, Shad Bala, Chart Summary, Upagrahas, Bhava Arudha, Special Lagnas, Chara Karaka, Tithi, Krishnamurti Paddhati, etc. In the chakra (North Indian or South Indian chart) you can place the chakra karaka and bhava arudha. Select whether you want the minutes and also the degrees of the positions, and whether you prefer glyphs, letters, or a number for zodiac signs and also whether house numbers are displayed. This greater flexibility allows you to have the chakra in a style that is comfortable for you. Calculate which sign is stronger using either the rules of N. Rao or S. Rath. Shad Bala values using any of the following tables to display: Basic information, Shad bala table, Shad bala graph, Upagrahas, Bhava Arudha, Special lagnas, and the Dasas. These Vedic features in Sirius are very intuitive and natural for the consulting Vedic astrologer and for students as well.

Panchanga: The Panchanga listing is beautifully formatted so that you can easily see the astrological factors that are used in Panchanga: rising and setting times of the Sun and Moon, nakshatra, tithi, yoga, and karana. Times are given

BUSINESS MANAGER

KRISHNAMURTI SCREEN

in the local time for any location and the precise times are given.

Muhurta: The Muhurta listing is also nicely formatted and provides an extensive number of topics and sub-topics, There are 10 main topics (such as Education, House Building, Travel, Medical Election, etc.) and specific topics within each of these main topic areas (such as learning medicine, learning music and dancing, etc.).

North Indian and South Indian Style wheel: Have greater flexibility and features with options to show the Chara Karaka and Bhava Arudha. You can use a glyph, letters, or a number to indicate the zodiac sign and whether house numbers are included.

Selecting Tables: Combined with the chakra wheels options is the flexibility to choose among 7 different tables to display in the scrolling window to the right of the chakras. Choose to display the upagrahas, special lagnas, the dasas, and other information in this window. The Vedic features in Sirius are developed with extreme care to ensure that the calculations conform with authoritative sources. Customizing features such as the ability to select N. Rao's or S. Rath's rules for determining which zodiac sign is stronger is also very flexible.

Vedic Chart

Rather than use astrological glyphs, you can now use two-letter abbreviations for the planets and/or zodiac signs.

More Vedic Dasas

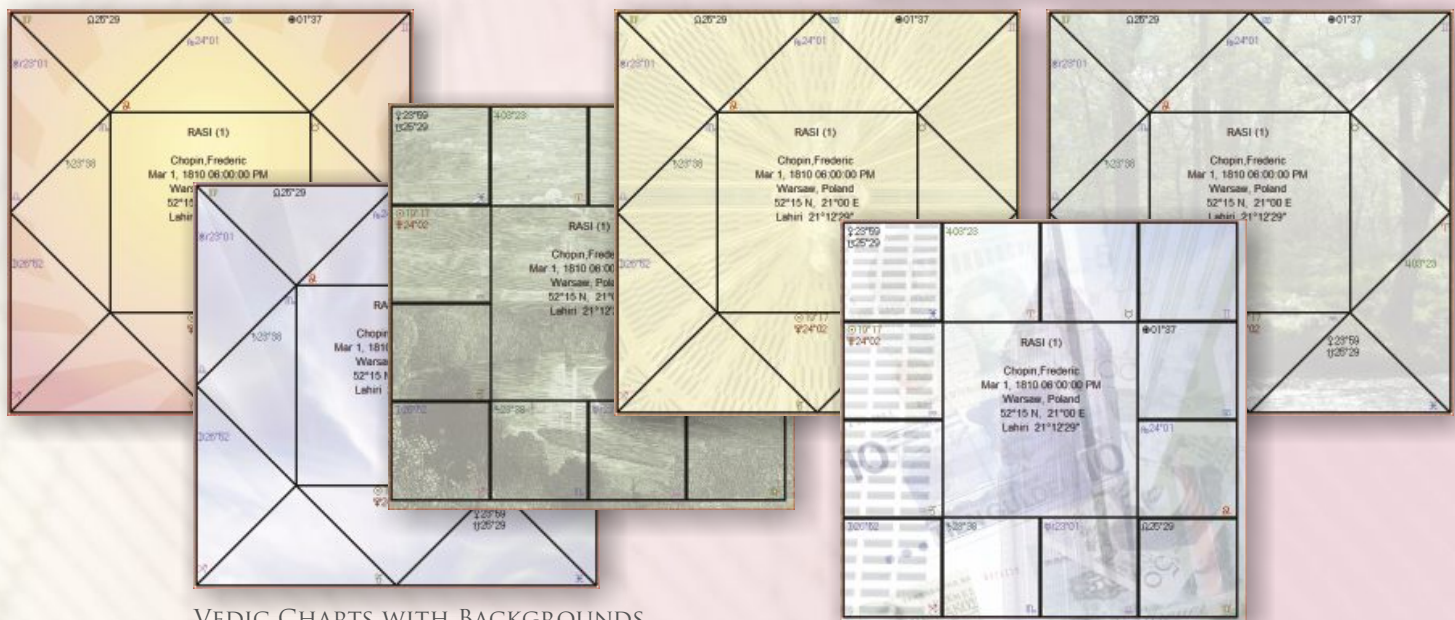

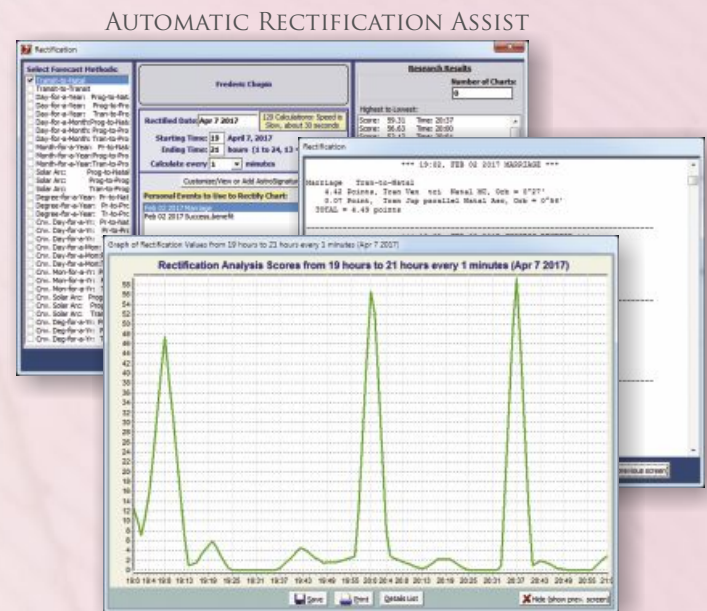

Dasas are very commonly used for prediction. We have added some of the less commonly used dasas, but these dasa systems are very important for some Vedic astrologers. The Sudasa, Nirayana, Shoola, Drigdasas, Kalachakra, and Yogini dasas have been added.

Varshapal

Varshapal (solar return) charts are now automatically calculated in the sidereal zodiac and can now include Muntha, Harsha Bala, and Sahams.

Vedic Planetary Strength

Also available in Sirius is a table of strengths and the benefic-malefic quality of the planets according to different Vedic authorities. The rules for calculating the strength of a planet and the functional benefic-malefic status of the planets vary for different Vedic astrologers. This table allows you to see the planetary strength and whether the planet is a functional benefic or malefic according to different astrologers. Sirius also has the extensive yoga interpretations, ashtakavarga graph and tables, gochara graph, and other excellent Vedic features.

VEDIC CHARTS WITH BACKGROUNDS

Asteroids

Sirius comes with about 1,500 asteroids. The customizable "My Asteroids List" in Sirius includes a listing of about 650 asteroids used commonly by astrologer Demetra George can be produced in Sirius. This list has formatting features, such as removing right ascension, speed, etc. if desired, and to have the asteroid data in columns, and also to print with 2 different size fonts. You can also purchase an optional 38,000 additional asteroids Cds.

Harmonic Astrology Features

In addition to the harmonic features that are in Kepler, Harmonic Age Charts can also be calculated automatically. A Harmonic Age Chart is a chart calculated based on the age of the person on a given date. Sirius also calculates fractional harmonic charts, rather than only harmonic charts that are whole integer numbers.

Integrated Listings

Sirius introduces Integrated Listings. These are listings that combine different kinds of information in a report. For example, you can produce a listing of the solar return positions for about 100 years (an entire life), with aspects in the solar return chart, aspects between the solar return and natal chart, and optionally also monthly progressed Asc and MC solar return cusps, with a choice of 4 calculation methods for these progressed solar return cusps: Naibod, Wynn Cycle, Mean Sun, and Wynn Cycle in zodiaco instead of by RAMC. A list of lunar return and planetary return positions can also be produced.

Progressed Cycles And Ingresses

Lifetime Progressed Major Cycles (Stations, Ingresses, Sun Moon Cycles of 8 Aspects: Another example of an integrated listing is the ability to produce a listing of significant influences in the secondary progressed chart. The significant influences included in this report are the ingresses of

planets into a new sign, the times when the aspects in an 8-phase progressed Sun-Moon cycle occur, and when planets station in the progressed chart. This listing gives not only a chronological list of when these influences occur but also lists the planetary positions at each of these times.

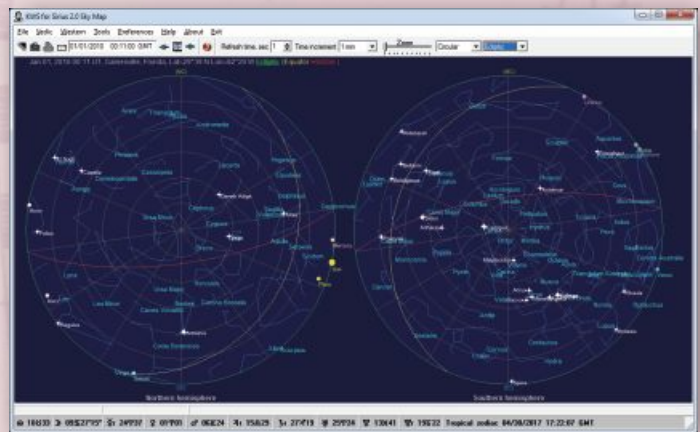

Interactive & Dynamic Displays of Chart Wheels

In Sirius the concept of interactively adjusting the time of a chart has developed into a set of features that are very sophisticated, elegant, and powerful. Selecting the Time Adjust feature brings up a narrow window, like a panel, on the right side of the screen, where you can interactively adjust the chart forward or backward in time, move the chart forward or backward to the next time an aspect occurs or a planet or house cusp ingresses into a sign or reaches a particular zodiac position.

Adjust the charts forward or backward in time or watch them move automatically. The time of an AstroClock can be automatically adjusted to the location for which the AstroClock is calculated.

Interactive Cosmobiology Dial

Another form of interactivity with chart wheels that is new in Sirius are the interactive cosmobiology dials. You can click on a 90 Degree Dial, and also a BiWheel, TriWheel, or QuadWheel 90 Degree Dial, and move a dial around the dial and the midpoints formed to that point are automatically displayed. In BiWheel, TriWheel, and QuadWheels, the midpoint structures are shown between the charts. The

Interactive Dials in Sirius are based on the plastic (metal or cardboard) dials that cosmobiologists have used for decades. Instead of printing chart wheels and placing them on a Dial, you can drag the mouse pointer around the Dial and instantaneously see the midpoint structures that are formed. You can also click a button to have the Dial jump automatically to the next or previous planet in the wheel.

The ability to have this capability not only in a regular wheel but also in a BiWheel, TriWheel, and QuadWheel Dial allows you to see midpoints between 2 people, or between progressed and transiting planets and natal planets. For the cosmobiologist who loves to use dials, the Interactive Dials in Sirius can make working with Dials very easy and powerful.

Degree Meanings

Sirius can produce a list of degree meanings of planets according to Dane Rudhyar's Sabian symbols and also according to 10 other authors of degree meaning books. In addition to this feature, Sirius has the ability to also produce Sabian Symbols for the planets based on the original Sabian Symbols published by Marc Edmund Jones directly from the information provided by Elsie Wheeler.

Research

The research features in Sirius are extensive and are very flexible. You can search through the database of over 85,000 charts (over 19,000 with AA accuracy) or a category

of the data for a combination of astrological influences. You can also research couples and events, and you can produce financial forecasts of actual and predicted performance and see how well your forecast correlates with actual prices. You can also explore the data by looking at graphs of the angular distribution of planets and other astrological data. A short-term Gold Forecast is included.

AstroMeteorology Forecast

You can produce a forecast of temperature, precipitation, and wind for any location. This forecast uses the standard modern methods for astrological weather forecasting.

Artificial Intelligence Research

There is also an Artificial Intelligence feature, which is an analysis of an AstroSignature to determine which factors in the AstroSignature are most effective and which ones are less effective, or possibly even reducing, the accuracy of the AstroSignature. You can also correlate an AstroSignature for birth charts with scores.

Assumptionless Research

In addition to the assumptionless research that are in Kepler, we added more to this feature in Sirius. From the "Midpoints and Harmonic Patterns" button in Sirius, you can now select "Midpoint Aspects Midpoint", "Midpoint Structure Analysis", and "Harmonic Pattern Analysis" to identify the midpoint and harmonic patterns that occur most often in a group. A window with several tabs for viewing the results in different ways makes this a powerful feature.

Birth Data

The number of charts included in Sirius is over 85,000. Marc Penfield and other data collectors have provided thousands of chart data to us, making it possible for Sirius to include this very large and accurate database of charts. The additional data provides you more data of famous people and research data for you to work with. Sirius allows you to have notes of unlimited length for charts.

Astromaps

Sirius provides several new kinds of AstroMaps in addition to the AstroMaps that are also in Kepler:

Asteroids AstroMap: This is a simple "Just Lines" Map of any asteroid lines that you wish to place in an AstroMap. You can select from among about 1,500 asteroids. You are no longer limited to seeing influences of planets in AstroMaps. Now you can select any asteroids to view as well.

Fixed Star AstroMap: Lines of the fixed stars are shown on the AstroMap. If you select the option to display the fixed star map lines in mundo, then you can see where fixed stars rise, set, culminate, and anti-culminate, which is something that was regarded in ancient systems of astrology and by modern astrologers as well. With both an Asteroids AstroMap and Fixed Stars AstroMap, you can explore many more possibilities.

The **Zenith AstroMap** should perhaps be called a "Zenith and Nadir AstroMap" because it shows points on the map where fixed stars would appear directly overhead (at the zenith) and directly beneath you (at the nadir). This map is actually a mapping of the constellations onto the Earth and shows the places where a fixed star has a particular powerful effect in a relocated chart.

Treasure Maps: Are AstroMap that focuses on certain areas of life. The most powerful areas are shaded in red, and less powerful areas are shaded in yellow. Treasure Maps allow you to provide the information that you or your customers really want to know about.

Astromap Popup Relocated Wheel

Click on an AstroMap to see a Popup Wheel of the relocated chart at this location. You can also click on the AstroMap to determine distances between points and to obtain an AstroMap interpretation of that location.

Astrolocality Report

The interactive interpretation that appears in Sirius and can also be produced as the AstroLocality Report. At the end of this report includes the interpretations for conjunctions of the relocated angular cusps to fixed stars and the score on various themes, such as Love and Romance Score, Vocation and Career score, etc.

Track Hurricane Path

For astrologers interest in AstroMeteorology, it is now possible to view hurricane paths on an AstroMap and also to download additional hurricane data and import it so that these hurricane paths can also be viewed.

Chart Wheels Features In Addition To The Features That Are In Kepler

There are several new default wheel styles in Sirius. A default wheel style is a wheel style provided by Sirius, so that no customizing is required to create it. Some, but not all of these wheel styles, can be produced in Kepler by customizing a wheel. These new default wheel styles in Sirius are:

- ★ "A wheel with birth data placed in the center of the wheel

MAP WITH HURRICANE PATH

- ★ "Nakshatra Wheel" that has the nakshatras (as well as zodiac signs if you wish) as an outer ring of the wheel and includes beautiful nakshatra glyphs created by visionary artist-astrologer Tara Cochrane.
- ★ Hellenistic wheel that has the Egyptian bounds areas around the outer ring, a dignities table that uses Egyptian bounds, and Hellenistic lots with their own glyphs placed in the wheel.
- ★ Ability to easily make up to 14 "My Wheels", which are customized wheels that you can name and work with without changing the default wheel styles.

Popup Wheel

A PopUp Wheel can be displayed in Sirius. A Popup Wheel is a small re-sizeable wheel that can be displayed while viewing other reports.

- ★ The Popup Wheel is a handy way to be able to refer to the natal chart while viewing other reports. Suppose, for example, that you are viewing a Time Line Format Forecast and you want to refer to the chart wheel, in Sirius you can also view the Popup Wheel without removing the Time Line Format forecast report that you are viewing.
- ★ The Popup Wheel can be dragged anywhere on the screen and it is re-sizeable so you can make it the size that you would like it to be.
- ★ The Popup Wheel also has its own "Customize" button that you can click to select many features of the Popup Wheel.
- ★ There is even a Popup Wheel while doing AstroSignature Research so that you can quickly see chart wheels of charts you are analyzing in the research section. Sirius is so elegant and comprehensive and has so many handy features that it may seem almost unbelievable that this.
- ★ The Popup Wheel can now display the chart of a different chart than the one you are viewing, and the Popup Wheel can stay visible after selecting a different chart entry.

Save Popup Wheel In The Database

In the data entry screen you can now see a popup wheel of charts that have been saved in the database. This can be handy if you wish to preview wheels as you read them from file. A popup wheel is already available in the main screen and in the AstroSignature research sections of Sirius where they are most needed but having a popup wheel in the data entry screen can also be handy.

Customizing A Chart Wheel Is Easy And Elegant

Customizing chart wheels in Sirius is very easy and elegant. Sirius allows you to right-click on a wheel and easily change the planets, aspects, fonts, and other features of the chart wheel. This powerful interactive capability of Sirius is fabulous.

Hellenistic Lots: Hellenistic lots. You can also place the 9 Hellenistic lots (arabic parts) in a wheel and also just the Part of Spirt as well as the Part of Fortune.

Asteroids and/or Arabic Parts in any chart wheel: You can place up to a total of 20 asteroids and/or the Arabic Parts in the chart wheel. Sirius also has an Asteroids Wheel that allows you to place up to 65 asteroids in the outer ring of a wheel, as well as the ability to produce listings of asteroid positions.

Any Asteroid can be selected: If your computer is connected to the Internet, then in Sirius 2.0 you can select any of over 400,000 asteroids to put in a chart wheel, a listing of asteroid positions, an AstroMap, transit Time Line, midpoints, etc. This feature is provided by combining the power of your computer with the power of the Internet.

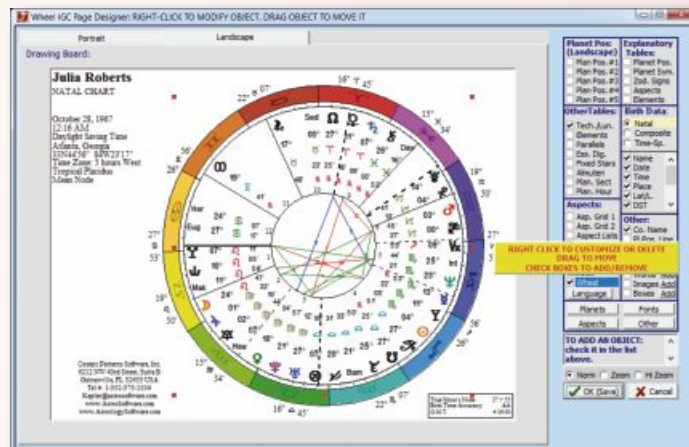

WHEEL WITH ASTEROIDS

Page Designer

A true drag-and-drop amazing Page Designer. The Page Designer lets you drag the chart wheel, aspect table, listing of planetary positions and other information in a "Drawing Board" window where you can customize the information just the way you want it. "Micro-adjust" the positions to

PAGE DESIGNER

the exact pixel placement that you wish to have (which is difficult to do when dragging an item with the mouse). You can select how much space is between the columns of data, how far the data is from a surrounding border. You can even adjust the spacing of the planet glyph, degrees, zodiac sign, minutes, and Rx glyph in the chart wheel with a micro-adjusting feature. Place graphics and text anywhere in a chart wheel, with options to allow graphic images to be either visible through the chart wheel or hidden by the chart wheel, and place a ring of decanate, dwadasamsa, navamsa, nakshatra, or terms in an outer ring (you can select only one of these), and have arrows placed at the end of the Asc, MC, IC, and/or Descendant house cusp lines in a chart wheel, and also easily adjust the size of these arrows. You may find that you feel like a graphics pro and can create new wheel designs even though you feel that you are not a computer savvy person.

Chart Wheel Styles

List of chart wheel styles in Sirius: Regular Wheel, Bi-Nakshatras Wheel Wheel, TriWheel, QuadWheel, 2 Separate Wheels, 3-Separate Wheels, 4 Separate Wheels, ArtWheel, Square Wheel, Patterns, 90 Degree Dial, Animated 90 degree dial, Compatibility Patterns, BiWheel Animation, TriWheel Animation, QuadWheel Animation, 2 Wheel Animation, 3 Wheel Animation, 4 Wheel Animation, Huber Wheel, Medieval Wheel, Aspect Grid Only, Harmonic Chart Wheel, Blank Wheel, Japanese/Chinese Name, Fixed Stars Wheel, Asteroids Wheel, Arabic Parts Wheel, Midpoints Wheel, Heliocentric Wheel, Nakshatra Wheel, Hellenistic Wheel, your own customized wheels, etc.

Moon Phase

Nearest Lunations and Eclipses: Examples of some of the new information that can be included with chart wheels are the moon phase and listings of nearest lunations and nearest eclipses.

Coordinate Systems

Normal (Zodiac Longitude), Heliocentric, Local Space (west on left, north on top), Horizon (east on left, south on top), Azimuth-altitude (west on left, south on top), Azimuth (West on left side), Right Ascension, Mundoscope (prime vertical chart), Declination Longitude Equivalent, Declination Longitude Equivalent Antiscia, Normal (not adjusted), Draconic (mean node), Draconic (true node), Tobey Secondary, Antiscia Chart, Contra Antiscia Chart, Dwadasamsa, Sun Zodiac Chart (Sun=0 Aries), Moon Zodiac Chart (moon = 0 Aries), Mercury Zodiac Chart (Mercury = 0 Aries), Venus Zodiac Chart (Venus = 0 Aries), Mars Zodiac Chart (Mars = 0 Aries), Jupiter Zodiac Chart (Jupiter = 0, Aries), Saturn Zodiac Chart (Saturn = 0 Aries), Uranus Zodiac Chart (Uranus = 0 Aries), Neptune Zodiac Chart (Neptune = 0 Aries), Pluto Zodiac Chart (Pluto = 0 Aries), Asc. Zodiac Chart (Asc. = 0 Aries), House Zodiac Chart.

House Systems

Sirius has 26 House Systems to choose from: Campanus, Equal, Koch, Meridian, Morinus, Placidus, Porphyry, Regiomontanus, Topocentric, Zero Aries, Sun-on-Ascendant, Planet-on-Ascendant, Whole Sign, Geodetic-Campanus, Geodetic-Koch, Geodetic-Placidus, Geodetic-Porphyry, Geodetic-Regiomontanus, Geodetic-Topocentric, Alcabitius, Neoporph, Rotated houses, Krusinski, Shri-Pati, Equal from MC, and Vertex on the 7th Cusp. Easily rotate the chart to place any house cusp on the Asc.

Aspect Patterns

Patterns formed between 3 or 4 planets are displayed in little diagrams. For example, 3 planets in a T-Square or Grand Trine pattern are shown separately in a small size so you can see each aspect pattern in the chart.

- ★ See planetary patterns like T-squares, grand trines, yods, and mystic rectangles that are commonly used in modern astrology.
- ★ You can also select patterns used in symmetrical astrology that involve 4 planets.
- ★ Select Huber patterns which include the complete set of patterns used in Huber astrology, including some of the more complex Huber system patterns.
- ★ View harmonic patterns. You can also view patterns formed between 2 charts as well as patterns within a single chart. You can also customize the patterns with the orbs and sets of patterns that you wish to analyze.

Sirius adapts the size of the patterns to the size of the page so that if only a few patterns occur in a particular chart, the patterns are made bigger so that there is not a huge amount of empty space on the page. For some sets of patterns, the number of patterns that occur in a chart can vary tremendously. This attention to detail and the care with which we have put into developing these features makes a big difference for the user.

Forecasting

In addition to producing secondary, solar arc, tertiary, minor, and degree-for-a-year progressed chart wheels, both direct and converse, Sirius can also calculate:

- ★ Profections (1 house = 1 year formula), and Ascendant Arc, Vertex Arc, Solar Declination Arc, and Solar R.A. Arc, Naibod Arc, and User-Defined Arc directions, both direct and converse.
- ★ Easily select from 4 methods of progressing secondary, tertiary, and minor progressions houses.
- ★ Select whether you wish to use the terms "Secondary Progressions" or "Day-for-a-Year Progressions"
- ★ Solar, Lunar, and Planet Returns (and also returns to an aspect to the natal planet, such as a demireturn).
- ★ **PSR Method:** Progressed Solar Return House Cusps are

★ referred to Fagan and Firebrace as the PSSR (Progressed Sidereal Solar Return and the example chart is the 7th one in the book (Chart G). This feature is included in Sirius and is referred to as the PSR (Progressed Solar Return) method of progressing houses.

- ★ Calculate a PreNatal Lutation Chart easily.
- ★ The PreNatal New Moon and PreNatal Full Moon can be selected in Sirius so that you can obtain the New Moon, Full Moon, or the lutation (New Moon if the Moon in the chart is waxing, and Full Moon if the Moon in the chart is waning).
- ★ A 3 Diurnal Chart can be selected with the following 3 variations of the calculation: "Sun-Mc Phase Angle Return", "Sun-Mc Phase Angle Return in Right Asc.", and "Sun-Asc Phase Angle Return". A Diurnal Chart is a chart calculated for the time you were born for any day.
- ★ When you select the Diurnal Chart, you have options to select a number of consecutive charts and also to select a location. These features were implemented in Sirius with great care and attention so you can obtain the information that you really want, and to get it as easily as possible.
- ★ Produce a Time Line Format forecast with the following 4-planet combinations formed between the transit or progressed chart and the natal chart: Midpoint-to-Midpoint conjunctions and oppositions, Same angle formed in the transit (or progressed chart) and natal chart, and also conjunctions and oppositions that occur in the composite chart.
- ★ The **Jonas astrological birth control method** forecast can be produced in time line format. The Jonas method is based on the times that the transiting Sun and Moon are in the same angle as in the birth chart. These 4-planet patterns are used in symmetrical astrology and are gaining increased interest in recent years by several leading astrologers.
- ★ Firdaria, Profections, and Huber Lifeclock Age Progression listings can also be produced.

Phase Angle Return

When, for example, the transiting Sun/Jupiter midpoint is aligned (conjunct or opposition) the natal Sun/Jupiter midpoint OR the composite Sun and composite Jupiter (that is, the composite position of these planets formed between the transits and natal chart) are aligned OR the transiting Sun-Jupiter angle is the same as the natal Sun-Jupiter angle (also known as a phase angle return or a mixed midpoint alignment), then a powerful interaction of the transiting Sun and Jupiter with the natal Sun and Jupiter occurs and we can expect the days when this influence is within orb to be a very powerful Sun-Jupiter day for the person. We can expect the person to be expansive, optimistic, and to attract new opportunities. With Sirius you can see these influences in the Time Line Format not only between transiting and natal planets but also between progressed and natal planets.

- ★ An option to see symmetrical patterns between planets that are not the same (for example, transiting Sun and Jupiter in relationship to natal Mercury and Venus). The ability to see these powerful 4-planet patterns opens new doors in astrology.
- ★ The customizing of time line format, transiting and progressed text listings, and interpretive reports is easier in Sirius.

NAKSHATRA REPORT by Tara Cochrane

The 12 zodiac signs are very familiar to most of us, and many people know their Sun Sign. In India a different system of celestial signs has also been used. In this report astrologer and artist Tara Cochrane paints a picture of your relationship to the cosmos. The nakshatra image combines with the descriptive information to provide you a window into the deep wisdom of ancient India. This report is designed to shed light on your individual nature and soul's purpose.

TALISMAN IMAGES by Tara Cochrane

The Talisman Images of the Picatrix provides the 28 talisman images described in the Picatrix as graphic images. The talisman images were painted by artist and astrologer Tara Cochrane, BFA. Great care was taken to fully respect the ancient tradition. The painting of each image began during a time when both the planetary hour and rising sign were ruled by the planet. The resulting 28 talisman images convey the power and strength of the original descriptions given in the Picatrix.

This report is a Lunar Return Report designed to help you face the biggest challenge to your health and diet, which is your emotional state. This report is a monthly look at dietary and exercise potential based on the sign on the Ascendant, with a secondary look at the Moon, house, aspects and all other planets. This Report is not intended to be used for "quick" dietary loss or health maintenance.

DISCLAIMER: No diet or exercise regime should be started without the advice of a doctor or physician.

Thirteen Moons Lunar Return by Art Poppe

This report is based on an astrological technique known as Lunar Returns. The analysis is very detailed, being about a dozen pages for each lunar return. The date when the influence begins appears below. The influences described will last for about one month.

FORECAST & PROGRESSION REPORTS

A **Forecast Report** predicts future trends - what is likely to occur over the coming months, days, or even years. The Kepler and Pegasus program includes the **Cosmo Forecast Report**. There are also many optional reports; these optional reports require Kepler to run. Each of the Forecast Reports is described below.

Transits, progressions, and solar returns are three of the most common astrological forecasting methods. A progressions is a kind of unfolding of the birth chart over time based on a cosmic ratio like a day to a year. Don't worry, you don't need to understand the theory of progressions to read this interpretation of your progressed chart!

AstroJourney II by Kathie Garcia

A forecast report specifically geared toward today's young adults, and to their parents, prior to the time of the first Saturn Return at age 29, when full astrological adulthood sets in unequivocally. So much growth and change occurs during these vital years in the search for self-realization, financial independence, the end of childhood, marriage and family, etc. Parents, too, pass through many changes as their children take flight. This report keeps concerned parents in touch with cycles affecting their older children as parental control diminishes. The approximate length for 1 month is about 13 pages. Currently available in English only

Business Forecast by Rosa Maria Viniegra

This report gives future trends for people engaged in running a business or making business decisions. This report interprets transiting-to-natal aspects that strongly affect one's business

pursuits. The approximate page length for three months is about 6 pages. Languages available: English, Spanish, Portuguese

Destiny & Decisions by Riley Goodwin

This report is down-to-earth and practical. He gives suggestions on how to best handle the astrological influences as well. Riley worked on this project for many years, and the care and attention that he put into this project is evident in the high quality of the final product. The approximate length for 1 month is about 10 pages. Currently available in English only

Gold Price Forecast by David Cochrane

Produces a forecast of gold prices. The forecast is a short-term forecast. In the research that was conducted to develop the Gold Forecast, correlations between actual and predicted gold prices were analyzed over 3-month periods. Includes gold, silver, and copper data. The gold data includes about 31 1/2 years of daily gold price data.

Karmic Forecast by Rosa Maria Viniegra

This forecast report focuses only on issues of a karmic and more inner nature. The approximate length for three months is about 15 pages. Languages available: Spanish, Portuguese

Love & Romance Forecast by R. M. Vniniestra

This report focuses on love and romance issues. It outlines the aspects between the transiting planets and the following three natal planets: Moon, Venus, and Pluto. The approximate length for three months is about 12 pages. Languages available: English, Spanish, Portuguese

Mini-Minder by Art Poppe

This report provides very brief interpretations of transits, including the option to include midpoint interpretations. Each interpretation is clear, concise, and focuses on tangible, concrete issues, avoiding detailed psychological analysis. Even though interpretations are very short, the length of a report is not short if you include midpoint interpretations. The approximate length for 1 month is about 10-12 pages. Currently available in English only

Poppe Forecast by Art Poppe

This report by Art Poppe is specific and detailed, with suggestions on how to best deal with the astrological influences. This report allows you to select which aspects, transiting planets, and natal planets are desired so that you can produce reports with a varying degrees of detail. There are interpretations of the traditional aspects (conjunction, opposition, square, trine, and sextile). Art's report includes semisquare, sesquiquadrate, and quincunx aspects. Another unique feature of this report is that you can interpret transiting midpoint structures, either transiting planet to natal midpoint and/or transiting midpoint to natal planet. The approximate length for 15 days is about 15-20 pages. Currently available in English only

Portuguese Forecast by Quirino Simoes

This report is similar to the Basic Forecast Report. It interprets transiting planets forming major aspects to natal planets. Planets

through the houses are also interpreted. Outer planet transits are treated in detail and inner planet transit interpretations are short and succinct. The approximate length for 1 month is about 10 pages. Currently available in Portuguese only

Secondary Progressed Report by Riley Goodwin

This report interprets the signs, the aspects, and the house positions in the progressed chart. The zodiac sign placements in the progressed chart and natal chart are also compared to each other. This report takes a rigorous approach to interpreting the secondary progressed chart, and the high quality of the final product reflects the care and attention that went into creating it. About 15 pages in length. Language available: English

Starlight Solutions Forecast by Gina Ronco

is a forecast report that not only describes future trends but advises you on how to best handle the astrological influences. For the outer planet transits, which have a longer and more powerful influence, the positive and negative tendencies, and remedies and suggestions for best handling the astrological influences are given. This is an intelligent and sensitive report designed to provide you practical information on how to succeed and move forward in your life. The approximate length for one month is about 12 pages. Language available: English

Star*Quest Pro by Ronco, Jawer, & Hajjar

This report is an expanded version of the Basic Forecast Report by Gina Ronco. Interpretations of the 4 major asteroids and Chiron (written by Maureen Hajar) and midpoints (written by Jeff Jawer) is included. It simply gives the additional capabilities of midpoint, Chiron, and asteroid interpretations. One other feature that is in this report, but not the Basic Forecast Report, is the ability to produce a forecast report in "Daily Format"; in this format one interpretation is given per day based on the strongest aspects in effect on that day. One month approximate page length is about 25-30 pages. Languages available in English, Spanish

Star*Quest by Gina Ronco

You can run either a transit-to-natal or progressed-to-natal report; you cannot combine transits and progressions in one report but you can run them as separate reports. Major aspects (conjunctions, oppositions, squares, trines, and sextiles) formed between the transiting and natal planets are interpreted, and also planets through the houses. Outer planet transits are treated in detail and inner planet transit interpretations are short and succinct. The approximate length for one month is about 13-20 pages. Languages available: English, Spanish, French, Norwegian, Russian

TAO DJIA Forecast by Richard Schulz

The term TAO refers to the **Technical Aspect Oscillator**, as well as the cycles and balance of yin and yang in the ancient and enduring Chinese philosophy—Taoism. The formula used to make the forecast is based on a weighting of planetary angular separation developed by myself and is based on the effects of astrological aspects including what many astrologers regard as minor aspects. The TAO DJIA Forecast draws from the theory of harmonics introduced by John Addey.

RELOCATION REPORTS

Relocation reports describe issues, challenges, and opportunities that arise if you visit or live in a particular place. These reports can be used when deciding where to move to, where to vacation, where to conduct business, where to look for romance, etc.

Best Places Report by David Cochrane

The Best Places Report does something amazingly simple and powerful: it tells you which towns and cities are best for the area of life you are most interested in. Instead of looking at an AstroMap or running an astrological analysis for particular cities, the Best Places Report simply tells you what the best places are!. About 2 to 3 pages in length. Language available: English

Cities & Towns by Gina Ronco

Are you thinking about moving, and wondering how you will like the new location? Or perhaps you are deciding on a place to vacation. Select up to 20 cities or towns, and the Cities and Towns Report will provide a brief description (about 1/3 to 1/2 page per location) of what you can expect in this location. Languages available: English, Spanish, German, French

Environment Therapy Report by David Cochrane

Environment Therapy refers to the ways in which different geographic regions affect our attitudes and behaviors and even our physical health, and how we can use this information to enhance our well being and health. This report provides an astrological analysis of what you are likely to experience in the cities and towns that you want to visit or live. Available in English

Relocation Information by Art Poppe

The Relocation Information Report provides an analysis of each town that is a little more detailed (about 1/2 page to 1 page per location) than the Cities and Towns Report. Astrologer Art Poppe, uses similar techniques as those used by Gina Ronco in the Cities and Towns. Languages available: English

PET REPORTS

Canine Report by Linda Frano

This report is written for owners of dogs. Linda is an experienced astrologer and also very deeply involved in working with dogs. She understands the issues, concerns, and how important your pet dog is to you. Dog owners know that each dog has its own unique personality, and this report describes your dog's personality, and how you can provide an environment in which your dog can thrive and be happy. About 12 pages in length. Currently Available in English only

Feline Report by Linda Frano

This report is written for cats owners. Independent of mind and spirit, cats have always displayed outright indignant behavior at any attempt to train them. Having a mind of their own and a highly changeable nature, cats are unlike any other animal you've owned. The favorites of many, they are misunderstood by all. Astrology helps us to understand some of the quirks these highly intelligent animals display. About 12 pages in length. Currently Available in English only

HORARY AND CLASSICAL ASTROLOGY REPORTS

Horary astrology analyzes the chart for the moment that a question is asked rather than analyzing a person's birth chart. Horary astrology was widely used throughout the Middle Ages and the rules used in horary astrology are rather complex and sophisticated. Some modern day astrologers also practice horary astrology as well.

Astroquest Horary by Dr. Randall Roffe, D.C.

Dr. Roffe designed this Horary Report to answer questions of any nature. He provides likely outcomes based on the planetary positions of the time and place of the question and combines this with natal chart aspects of the individual. Descriptions are given of the general situation, the questioner, the quesited object or person and much more. This report includes Astro Love Quest Report, and the ability to produce a shorter report geared specifically towards questions regarding issues of love and romance. About 10-12 pages in length. Language available: English

Blue★Star Professional includes 16 reports that can be saved, printed, and emailed as PDF files.

Blue★Star is a 21st Century astrology program combining traditional astrological chart wheels and calculations with fully illustrated state-of-the-art interpretive reports.

Those of you who are professional astrologers know that single reports (with rights to distribute) often sell from. Blue★Star includes complete reports — all fully illustrated and professionally formatted. **How can we do this?**

The answer is simple. Although all of the chart wheels and calculations print out as PDF files, the sixteen Blue★Star Personal interpretative re-

ports are limited to on-screen viewing, EXCEPT in the professional version, Blue★Star Pro, in which case all sixteen reports can be saved, printed, and emailed as PDF files.

This gives you two options: If all you need are reports for your family and friends, then Blue★Star Personal may be all you need. If you are running a business and want to sell and distribute reports, then Blue★Star Pro should be your choice. Either way—with either one—you will get all of the reports, plus loads of chart wheels and calculations.

Because everyone's needs are different, Blue★Star lets you add the modules that fit your needs.

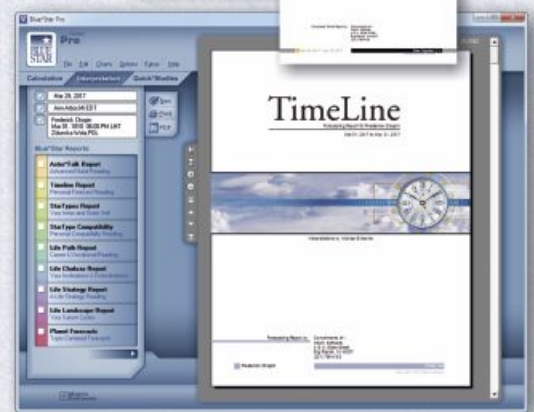

Chart Calculation: Blue★Star is part of the newest generation of innovative Matrix programs having ease-of-use professional tools such as Two Wheel Display, from Single-Wheels to Quad-Wheels, Aspects List Box, Synastry, Center Aspects, Helio Charts, Local Space, Arabic Parts, Time★Scan, Around the Wheel, Midpoints, Designer Wheels, Pop Up Interpretations, and much more. All of these tools are available in both the Blue★Star Personal and Blue★Star Pro versions.

Interpretations: Sixteen screen versions of the most popular Matrix reports, completely formatted and with full-color images, including the two most popular interpretative reports in the world; Astro★Talk and TimeLine.

With Blue★Star Personal you can read and study any of these reports (for any birth time) on-screen, Blue★Star Pro includes these same sixteen reports, but in this program the full reports can easily be saved, printed, and emailed as PDF files. Plus, you can add more reports to your collection.

Add just what you need to Blue★Star: You can add additional reports to the Professional version and you can also add, in both versions, additional charts, tables, and other specialty Qick★Studies modules.

Matrix HORIZONS

Meet the new Standard for Professional Relocation Software

In the 1990s, Matrix Win*Maps broke new ground for astrologers offering their clients and customers relocation counseling. It quickly became an essential tool for anyone who was serious about astromapping and relocation.

When the Master of Relocation Astrology, Jim Lewis, wanted to create software for his Astro*Carto*Graphy techniques, he chose Matrix Software as his collaborative partner, producing the highly respected and exceedingly popular Astro*Carto*Graphy Explained software (page 40).

Those of you who know Matrix Software also know that it was our founder, Michael Erlewine, who developed the widely acclaimed Local Space technique, which is now used by astrologers in more than 120 countries.

That's the genealogy of the first new astromapping/relocation astrology program of the new century. **Matrix Horizons will take your relocation work to an entirely new, and better, place.**

Professional astrologers and counselors, you will appreciate the range of tools the program offers, giving you incredible flexibility and the ability to efficiently evaluate a location or group of locations even while you have a client on the phone. The fluid interface lets you move easily

through different considerations and perspectives. This is your program.

Amateur astrologers, novices, students, and non-astrologers, you will enjoy the extensive interpretations, easy-to-read and understand graphs that let you easily compare and evaluate locations, as well as theme maps that show you precisely where particular influences lie on your personal chart/map. With a few clicks you can even create your own themes, and then map them instantly! This is powerful stuff.

Horizons sets a higher standard for astromapping and relocation software.

Just some of Matrix Horizons' many features:

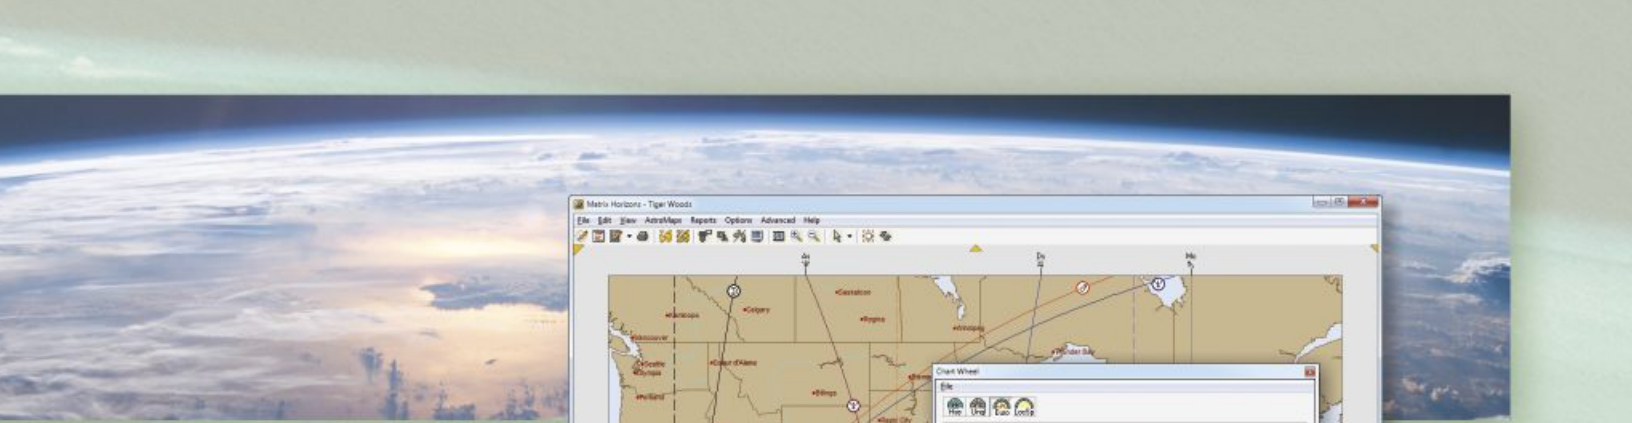

Hi-resolution maps ideal for quality printing. You can also export them in formats ideal for easy e-mailing to your clients anywhere in the world.

Matrix Search

The Time Machine

With Matrix Search, seek and you shall find!

Matrix has always been known for the power and sophistication of our search programs, but this time Stephen (Erlewine) has outdone himself. This new program is, by unanimous agreement, the most powerful search program ever available to astrologers.

Who is it for – serious counseling astrologers, researchers, mundane astrologers, electional astrologers, and anyone with an insatiable curiosity about what the future holds – or perhaps why something occurred in the past.

Matrix Search software gives you the power to create and save personalized searches that you can then access instantly, or you can use the pre-programmed One-Click Select Searches that include the standard:

- Transit-to-Transit Searches
- Transit-to-Natal Searches
- Progressed-to-Natal Searches
- Transit-to-Progressed Searches
- Arc-to-Natal Searches
- Pattern Searches

Add any planet, object, or point in the universe to your searches – built into the program are standard points, including Zodiac Point, Eclipse or Luration before birth, Arabic Parts, Fixed Stars, AstroExpression, Synodic Point, Natal chart points, Natal Cusps. But, you can go where no astrologer has gone before and add absolutely any object or point you consider significant.

Matrix Search software's flexible display lets you view your searches as a scan – click and zoom, or as a list, click and instantly pop-up a chart of that event; see all of the influences at play in a given moment.

Sorts and Filters are the key to any search, especially when you can produce life scans that may contain up to 32,000 hits. Matrix Search software lets you sort, sift, and filter your results so that you can focus on exactly what you are looking for, and see what is important.

One-Click Pre-set sorts include: Time; Planet Pairs; Planets, Time; Aspects; Events; Search Types; Enter, Exact, Leaving; Exact, Enter, Leaving; Planet 1's position; Planet 2's position.

One-Click Select searches are pre-programmed for 1 and 3 days; 1 and 2 weeks; 1, 2, 3, and 6 months; 1, 2, 3, 4, 5, 10, 15, 20, 25, 30, 60, and 90 years. Or select the exact length of your search. Life-Time scans/searches are perhaps one of the most interesting and exciting things you can view, and share with a client.

What you see with Matrix Search software you determine. Some of the One-Click instant views include Lunations, Eclipses, Lunar Phases, Void of

Course Moon, Stations, Sign Ingresses, House Ingresses, Equinoxes and Solstices, Synodic Cycles, Aspect, Aspect Combinations, Chart Patterns, Moon Apogees and Perigees, Lunar Days. All program output is in convenient PDF format for easy saving, printing, and e-mailing.

AstroTalk

Professional Natal Report

The AstroTalk Natal Report produces one of the finest astrological horoscopes ever made. The report's no-nonsense description of the basic planetary configurations present in your life and how they affect you has provided insight to thousands of people.

Inside an AstroTalk report

Introduction

To help a client understand the value of their report, each begins with a brief introduction to astrology and the key concepts used by today's astrologers when interpreting a chart.

• The planets

The first and largest chapter of the report takes the reader through the planets and their aspects, beginning with the Lights (Sun and Moon). You have a choice of nine different aspect sets, plus the option of including or omitting any combination of planets. An important feature is the use of two sets of interpretations for each aspect pair. This means no duplications in the text on planetary aspects.

• Life landscapes

These Saturn transits in the Grant Lewi style provide a description of major life periods: your personal background, plus a close-up look at your current situation complete with exact dates of Saturn transits.

• Burn rate

Do you run hot and fast? Do things in your life change rapidly? Or is your life less turbulent and more straightforward? Discover what your "burn rate" is. *Burn rate* is based on a very new and exciting technique. The geocentric and heliocentric positions of the planets are analyzed, and the planets in high focus are interpreted. Find out if your burn rate is high, low, or in-between and whether the majority of your planets are in the past, present, or future.

• Chart patterns/soul type

Both geocentric and heliocentric charts are analyzed for major chart patterns and then interpreted. Your inner self is contrasted with your outer personality. Keys to both inner and outer aspects are delineated. Even your personal hot spot (the most aspected planet) is described.

• Elemental balance

This section gives an analysis of elements, modalities, and angularities. Which do you have in abundance and which are you lacking? Measuring these gives a general picture of the person.

• Challenges & abilities

Here is a second breakdown of planetary aspects, describing areas of intense focus and activity. *Challenges* can be difficult, requiring caution and extra patience. *Abilities* are areas of clear insight and real talent.

• Interface nodes

Interface Nodes provides a complete heliocentric planetary node analysis. The position of each planet in relation to the orbital planes of the other planets is indicated by either inclinations (likes) or disinclinations (dislikes). The nodes represent our root level or core – our innermost qualities.

• House activity and emphasis

This is a six- to eight-page report on this very important basic part of astrology. Houses, signs, and planets in houses are looked at in this section.

• Major transits

AstroTalk calculates and interprets transits for Jupiter, Saturn, Uranus, Neptune, and Pluto. It gives dates when the next major transits for these planets are exact in your chart.

• Explanatory supplement

A 15-page introduction to the astrological terms and concepts used in *AstroTalk* report writer. Like any of the other chapters, you can choose to include this in your print-outs or not. It's a valuable part of the report for your customers who would like to learn more about astrology.

Professional Natal Report Software by Steven Forrest

The Sky Within

Professional Natal Report

This is a sensitive, beautifully written astrological view of your spiritual being.

Heaven Knows What

Professional Advanced Natal Report

Grant Lewi's astrological interpretations provide the model that today's astrologers strive to achieve.

A *Grant Lewi* report is a remarkable document that offers you – or if you use this professionally, your client – a better understanding of your inner self and your current situation. The sense of clarity a Lewi report can provide will give you the understanding and confidence to make the decisions you must make to achieve personal fulfillment.

This software calculates your chart and then gathers an interpretation directly from *Grant Lewi's* original text, strictly according to the astrological factors and theories found within his work. Each report contains both natal and transit interpretations,

including the sign each planet occupies. The conditional statements within each report work in the same manner as Lewi himself did: one aspect is modified because there is another contributing aspect in the chart that impacts the interpretations and the conclusions drawn when viewing the chart as a comprehensive whole.

The text contained within a report is valid even for those who don't know their time of birth – Lewi focused on those factors that are in effect throughout the birth day. The only exception to this is the case of the Moon, which can move between 12 and 14 degrees in a day, so if the positions were calculated for noon then the Moon could be as much as six or seven degrees different and possibly even change signs. If you don't know your exact birth time you may wish to compare reports done for the beginning and the end of the day.

The Jupiter Report

Professional Advanced Natal Report

Soaring Your Life's Course

Jupiter is the planet of opportunity: the bringer of good luck; overseer of our particular fortune in the world; and guide on whatever particular path we travel searching for wealth and opportunity. Every astrologer knows this; however, this is not the only function of Jupiter: he is also the wise teacher, the planetary guru who shows us how to grow into the souls we were born to be, helping us to learn the key lessons we were meant to learn.

Every twelve years, as planet Jupiter returns to our natal position, an opportunity arises for us to gain a deeper appreciation and understanding of the lessons in our lives. By looking ahead and gaining a better understanding of our upcoming Jupiter returns, we can obtain, before they occur, a better grip on life's lessons, and thus go through our transitions with our eyes more fully open.

Here, in concise and yet complete format, is a full-life report on Jupiter (the

planet of direction and opportunity) written by master astrologer Sam Reynolds, a well-known astrologer who has extensive counseling experience.

Not only cover all of the standard astrological factors (Jupiter in sign, house, and aspects) but he also goes on to detail the key times that Jupiter returns over the next 84 years of your lifetime, thus revealing what lessons you are here to learn and acquire understanding from, at what age you might be facing striking challenges.

Add new dimensions
to your readings!

Help your clients learn more about their capacity to nurture, their sexuality and curative powers, and their social potential.

Asteroids reveals the impact of Ceres, Juno, Vesta, Pallas Athena, and Chiron upon your chart, shedding new light on important areas of emotion and experience, much of it from a female perspective. Relatively new to the astrologer's palette, like Pluto, these "minor planets" have more punch than their size indicates. Rich in mythology, they touch on subtle

aspects of the personality. Viniita Hutchinson carefully explores their symbolic meanings and explains how they operate within your natal chart.

- **Ceres** outlines the inner provider, your nurturing heart
- **Juno** provides the key to your marriage, how to secure it and enrich its potential
- **Vesta** paints the spectrum of your sexuality from contemplative content to knowing abandon

- **Pallas Athena** unfolds your inner wisdom and strength to cut through to life's solutions
- **Chiron** awakens your inner mentor and heals lingering wounds

The asteroids and Chiron are delineated by house, sign, and aspects throughout your natal chart. Add a wealth of distaff subtlety and depth to your consultations with *Asteroids*.

CHILD★STAR

Professional Advanced Natal Report

How wondrous is the moment when you first look into the eyes of your newborn child!

Without question, every parent's goal is to guide the development of their child so that they realize their fullest potential and, with it, happiness. But children are not delivered with a manual, leaving parents to grope blindly as they strive to discover their child's personality and the correct way to guide them along the proper path. A *Child★Star* report helps you instantly recognize and attune to your child's strengths, weaknesses, aptitude, and potentials. It will provide you with suggestions on how to acknowledge and alter negative behavior, and how to maximize the positive aspects of this amazing new being. This critical knowledge leads to greater patience, a virtue of immeasurable value when raising a child.

Kathie Garcia has collaborated with our technical team to create a program that produces reports that are direct, yet sensitive and encouraging; each is filled with an awareness of the possibilities and challenges your child (and you with them) can look forward to in life. *Child★Star* describes your child's world — its family, educational inclinations, and emerging identity. Good parents know that by spotting both talents and possible challenges in advance they can help their child lead a fulfilled life.

What is inside a Child★Star Report

Child★Star is divided into several sections, all in Kathie's warm, engaging prose. These include:

- A detailed analysis of the planets and aspects
- The houses of your child's chart
- Your child's talents and challenges
- An overview of major life periods

Child★Star makes a wonderful gift, ideal for a newborn, but just as useful for parents of an adolescent or even a teen. *Child★Star* is inspiring yet practical, written in an easy-to-understand language covering every planet and aspect in a child's chart.

In addition to the rigorous testing to which all Matrix reports are subject, *Child★Star* has been reviewed and approved by a child psychologist.

How can we challenge the child to bring out the positive Sun sign potential, but, at the same time, teach them to know clearly when they cross the line into negatives that could cause much grief and sorrow later, if not corrected now?

For those who hold newborns, Child★Star will offer many insights that will prove their worth for years to come. For those of you with older children, this report will shed much light that will help you better understand your child and where he or she is headed. Some will walk through their childhood again through the pages of this report — finding, healing, and attuning with the child within.

And you thought a child didn't come with instructions!

An Astrology report just for Women

Professional Advanced Natal Report

Just for Women produces reports of such great astrological depth and quality that some argue it should not be confined to a female audience. But there is no denying the fact that Gloria Star created a report that interprets a chart from the perspective of a woman living within an ever-changing, ever more demanding world.

The roles that women are asked to play in our society today are many and complex. Today's woman is often expected to carry out the tasks of career person, wife, mother, community leader,

and more all simultaneously. Figuring out where to put your energy, talents, and emotions, and how to create time for you, can be daunting. But all of the answers can be found through an accurate interpretation of your natal chart.

Just for Women uses:

- Elemental Balances
- Planets in Sign
- Modal Balances
- Planets in House
- Planetary Positions
- House in Sign
- Planetary Aspects

"I am wary of products created and marketed for women as if they're saying that just because we are women we all like and want the same things. But I read a Just for Women report and I was hooked! Never have I read an astrological report that was so accurate, intelligent, and sophisticated. Each report I create is as unique as the person I'm creating the report for!"

Your Spiritual Path

Professional Advanced Natal Report

Our spiritual character and needs are well-defined from the instant of our births. Yet from that same moment, forces around us begin to exert sometimes-overwhelming influences on the direction of our spiritual development. Though well-intended, these forces may move us along a path that is in fact contrary to our own best interests. The conflict between your inner spiritual being and the information you are being given may cause a dissonance that vibrates

through every aspect of your life, just as the harmony of true spiritual development can be seen in your every action.

Learning to identify and acknowledge the characteristics that define your innermost self is the first step in achieving the harmony and spiritual fulfillment you seek.

This report does not attempt to define your spiritual goals, or offer philosophical

opinions about what they should be. It is not a roadmap to nirvana or a checklist for sainthood. *Your Spiritual Path* gives you a look “inside.” It provides an unbiased perspective on the characteristics that define who you are on a spiritual level. More importantly, it gives you a clear understanding of how you can best nurture and develop those characteristics that enhance your progress towards spiritual maturity.

Professional Karmic Report Software by Bernie Ashman

Past Lives

Professional Advanced Natal Report

A psychic may claim to give you the name and address of who you were the last time around, but don't count on that for forwarding your mail. Astrology doesn't make such claims, but it can tell you much more, especially in the hands of a skilled specialist.

That's because your natal horoscope isn't just the beginning of your current existence, it's the end of your past ones, so it becomes a window on your previous experience when carefully interpreted. Like an archaeologist reconstructing an ancient civilization from

its artifacts, master astrologer **Bernie Ashman** uses specialized techniques to reverse the arrow of time and focus on what went on before your birth that gave you the horoscope you have in this life. This includes reversing the order of the houses, special attention to the clearly karmic North and South Nodes, and a deeper understanding of retrograde planets, sure indicators of the re-workings of the soul across history.

Put them all together, and you have a derived picture of your spiritual leanings, the paths you have trod before, and how

your higher goals have evolved to build upon your universal life experience. Talents you possess and obstacles you face suddenly become clearer in the light of a greater inner overview. Puzzling elements in the natal chart start to make sense in the larger context and the future comes into tighter focus as a result. When you can see the last turns of the wheel of karma, the next steps become more apparent. Succeeding realities become a clear pattern instead of individual enigmas.

Friends & Lovers

Professional Synastry Relationship Report

Friends & Lovers profiles are written just for the two of you: a counseling astrologer's guided tour of your relationship. *Friends & Lovers* calculates two personal horoscopes, compares them in detail, and prints an in-depth profile of what's happening between you astrologically. Each *Friends & Lovers* report is written in four parts which look at the relationship from your perspective as well as the other person's.

Take a fascinating look at your family and friendships... and your business relationships, too!

● **First**, explore how you approach relationships in general. Do you have an easy time becoming close to someone? What are the traits that will influence all your relationships – from your childhood friends to your business associates? The clues are in your birth chart. *Friends & Lovers* finds and interprets them in the first portion of each report.

● **Second**, how are these same questions answered in the other person's chart? What do they bring to each relationship that helps or hinders?

● **Third**, how you relate to this person in particular: how your two charts intertwine to create the feelings you are experiencing.

● **Fourth**, how your partner relates to you. How will you two get along? What role does

each play here? The answers are fascinating, and many people are startled to find just how revealing their *Friends & Lovers* report is.

You can produce these profiles in either of two versions: **romance reports for lovers** or **profiles on non-romantic relationships**. The program adapts its interpretive text, depending on your selection.

Friends & Lovers profiles are in demand. These reports make great gifts – and selling them is a good way to make your computer pay for itself. The Professional version of *Friends & Lovers* is geared to the high-volume output of a profitable report business.

RELATING POTENTIAL

Professional Specialty Natal Report

From the bedroom to the boardroom, how you relate to other people is at the heart of living. More important, knowing how you do it is the key to your success.

Would you leave for work or an important date without checking the mirror? No, because you need to know your own cards before you play them. For that same reason, you should have a *Relating Potential* report close by. What this report does for you is sort your relationship hand, show you what you have, top to bottom, by planet, house, and sign. Author, journalist, and pioneering astrologer **John Townley** explains your personal possibilities so you know what you've got to work with and how to play to your best advantage, to give and get the most out each relationship.

It's also a camera for you to see yourself as others see you, and helps you fully know your part ahead of time. By putting together an inside and outside view of how you relate to others – in love, friendship, business, and competition – it allows you to utilize your greatest strengths and expand your interactive instincts.

Each chapter examines a different part of the whole person, such as energy/drive, inner needs/sexuality, independence, and originality. *Relating Potential* reports take you on an intimate journey of self-discovery. At the end of the voyage, happier, more-fulfilling relationships await.

“This report was like holding up a mirror that let me see how I relate to other people. No – it did more than that – this may have been the very first time I clearly saw myself as others see me. This revelation has helped me transform nearly every relationship I have. I wish I had discovered this program years ago.”

Simpáticos

Professional Composite Relationship Report

Simpáticos looks not at two individuals, but at the energy their relationship creates.

The magical allure of romantic love calls us to embark upon a quest to find a soul mate. But maintaining clarity in the midst of relating to lovers, friends, parents, business associates, and children is no easy accomplishment. *Simpáticos* combines two charts into one composite chart to view points of potential conflict as well as areas of harmony and pleasure. It can offer a roadmap to an empowering relationship.

Simpáticos does not shy away from sensitive questions. It is ultimately truthful.

Simpáticos acknowledges the fact that the word relationship is more a verb than a noun.

Simpáticos reports are divided into four major sections:

● **The Playing field**

Outlines a comprehensive approach to relationships and the kind of communication that makes them work.

● **The Players**

Is an in-depth analysis of the planets of the composite chart, including the sign and house they occupy. You will also find descriptions of the composite Ascendant and Part-of-Fortune. The “main players” are the Sun, Moon, Ascendant, and Part-of-

Fortune. The “supporting cast” includes the remaining planets and the Midheaven.

● **The Aspects**

Focuses on communication and negotiation, areas of harmony in the relationship, fusion of energies, and potential areas of friction.

● **The Nodes of the Moon**

“The Nodes – their celestial polarity – give clues to your connection on the soul level.” This somewhat unconscious connection emerges into awareness in relationships of longer duration.

TIME TOGETHER

Relationship and compatibility astrology remains the single most popular form of astrology practiced around the world, but tracking the future of natal charts of two persons and combining the resulting list of indicators can be complicated. Wouldn't it be nice if there were a single chart that properly represented the relationship, one that could reveal how that special relationship changes day by day?

Well, a master astrologer, John Townley, discovered it in the early 1970s. Called the **Composite Chart**, this chart represents both people in a relationship by combining the two charts into a single chart.

Since no one knows the composite chart like John Townley, we asked Townley to use his extensive experience and write a compatibility report for Matrix that would

show not only the nature of the individual relationships, but also how that relationship changes over time, **giving day-by-day analysis**, but also charting out the overall future of the relationship over time.

Professional **Compatibility Report** Software by John Townley

TOGETHERNESS

We had Townley write two separate reports, a natal analysis of the basic relationship, the **Togetherness Report** and a second report that tracks that relationship as it moves forward in time, called **Time Together**.

And, since many of your clients may not be astrologers, we offer these reports in a new easy-to-read visual format. Included in the

report are a complete set of **Astro*Images**, tarot-like cards that communicate directly with the mind, visually communicating the essence of an aspect at a glance.

Of course, we have a complete written interpretation to go with the cards, plus keyword headers, and the usual astrological description. And **Astro*Images** can be turned on and off at your discretion.

The **Togetherness** report offers a full compatibility interpretation of the basic natal composite chart of the two individuals involved. This interpretation describes the nature of the relationship itself.

The Birthday Report

Professional Forecasting Report

The most advanced astrological interpretation ever produced.

The **Birthday Report** is very special in that it is an example of what, in the trade, is called an evergreen report, meaning, it will never go out of style! Let's face it, we all have birthdays, if not, we are no longer alive! **The Birthday Report** is an investment that will keep on giving, year in and year out.

It is well-known that a solar return chart is a chart cast in reference to the instant the Sun returns to the exact place where it was at the moment you were born, and in relation to wherever you happen to be now. That's simple enough. This happens within a day of your birthday every year, and therefore, the solar return is called your birthday chart. Your natal chart may be the most important description of you, but your Solar Return is considered, by many

astrologers, to be the most important chart for describing your current year.

John Townley, a veteran astrologer, has more than 40 years of experience: he popularized the Composite Chart and shared it with all of us; his work on cycles is well-known around the world, and he has many books to his credit as well; we were thrilled, therefore, when he agreed to write a new solar-return program for us – an authentic Birthday Report.

It is beautiful from start to finish, taking full advantage of unique graphics, such as individual **Astro*Image cards**, which you can either include or exclude at the touch of a button. Along with well-designed graphics creating an attractive cover page, this report also includes both natal and current solar return charts, with planet listings for both.

This is a full report, covering, just as you would expect, all of the major planetary categories. Each category contains an exceptional interpretation by John Townley.

The Right Place, a list of all of the major cities in North America, as well as in the world, each color-coded with an indication as to whether or not the city is auspicious for the year of the solar return. Your customers can tell, at a glance, if they may want to order one for another city.

The Birthday Report includes **The Daily News**, a detailed day-by-day calendar of the coming year. This calendar is not, simply, a printed list, but each day is illustrated with a graphic **Astro*Image**. These images help the client to get in tune with, or get —a feel for,— the Astro-event listed on a particular day.

TimeLine

Professional Forecasting Report

Progressions, transits, and directions all in one package.

● **Transits** compare where the planets are now with where they were at birth. They vary in intensity according to their duration, which depends on the rate of motion of the transiting planet. Transits are found by referring to an ephemeris of the planets' positions for a given year and comparing this information with the positions of the planets and important points in the natal chart. *TimeLine does this for you.*

● **Progressions** measure the natural motions of planets against the zodiac during the early part of life, according to an equation that one day or one month equals one year in your life. *TimeLine* supports *Secondary* and *Quotidian* (1 and 2) major progression methods, as well as *Tertiary* and *Minor* progressions.

● **Directions** look at what happens within a day, according to an equation that one degree of diurnal motion equals one day in your life. Thus evolves a symbolic method

of forecasting based on adding a fixed arc to the natal planets and comparing the directed positions to the natal positions to evaluate the occurrence of aspects. Arcs of direction are calculated in a variety of ways, such as *Solar Arc*, *Degree-for-a-Year*, *Naibod Arc*, *Ascendant Arc*, and *Vertical Arc*.

● **Ingresses** are the entrance of the sun, moon, or any planet into a house or sign of the zodiac, with a resulting alteration of its influence. *TimeLine* allows you to determine the moment of ingress with great accuracy.

● **Eclipses** involve our two most influential celestial bodies in their strongest aspects, creating the single most measurable radical change to the earth's magnetic field. Eclipse points in the natal chart bring about "crisis" situations involving the house in which they appear and any planets aspecting to them – the closer the aspect, the more pronounced the effect. The duration of effect for a given eclipse is uncertain and debatable.

Look Inside TimeLine

- **Report formats** let you select and print reports for periods of 1, 3, 6, or 12 months.
- **Report highlights** cover major events (those with a duration of longer than about two months).
- **Monthly format** divides reports into separate monthly chapters, including a monthly highlight for events with a duration longer than 16 days.
- **Text repetition** - You can decide whether you want the main report to repeat the text that was printed in the highlights.
- **TimeScan** - Provides your customers with graphs for the entire report period or for individual months (or both!).
- **Job information** prints a table of planets with house and sign information.
- **Starting positions** prints the house and sign locations (and interpretive paragraphs) of active planets for the report starting date.

Also Available in Spanish, French, Dutch, Norwegian, and Swedish.

Sky Log

Professional Forecasting Report

●●●●● Sky Log Scan 1

Considers the major transits of the outer planets including: Progressed Sun in house and sign ingresses; progressed Sun conjunct any natal planet.

●●●●● Sky Log Scan 2

Considers the minor transits and progressions of the outer planets including: progressed sign and natal house ingresses of Moon, Mercury, Venus, and Mars.

●●●●● Sky Log Scan 3

Considers the daily aspects of the inner planets including: all transiting Jupiter aspects to natal planets and points, and progressions of the Moon in any aspect with a natal planet.

We know many astrologers will want to include both reports (*The Sky Within* and *Sky Log*) with their chart services, as companion pieces. *Sky Log* is a big report, with many options. It covers both transits and progressions – subjects usually requiring separate reports.

The complete *Sky Log* report for a year's transit and progression aspects can run between 50 and 100 pages! Every page is packed with useful information you can use immediately.

That spells “chart service powerhouse,” but it might be more than astrologers will want to give at one time (or their clients will want to receive). For this reason, *Sky Log* can be customized by printing any or all of the three different reports (called “scans”) in time periods of 3, 6, 9, and 12 months. Thus *Sky Log* gives your chart service a variety of new options.

Sky Log creates a report on an individual's transits and secondary progressions. There are three sections: *The Invitation*, *The Means*, and

The Details, each of which is organized chronologically (rather than by planet), making for a more flowing and intuitive report.

The Invitation

This gives the big picture, including an analysis of a few major transits and secondary progressions.

The Means

The Means covers “second order” events, emphasizing major sextiles and trines.

The Details

This is a month-by-month, aspect-by-aspect astrological view of the year based on the Moon, Mercury, and Venus; it is organized into 12 chapters (one for each month).

Life Progressions

Professional Forecasting Report

What are progressions?

Progressions are another technique (transits being a method used for showing more immediate events) for moving a natal chart through time. *Life Progressions* software uses Secondary Progressions to display a slow, steady movement that represents your own personal evolution. The aspects shown in a chart are long lasting, understanding them is indispensable to understanding your own inner growth. This software allows you to experiment with a variety of methods. To read more about Progressions visit the “Learn Astrology” section of the Matrix website: www.astrologysoftware.com

The next chapter in your life-story may be the best yet!

The physical, emotional, and spiritual changes we experience throughout the course of our lives can be predicted and plotted by carefully observing the progression of our natal chart through time. *Life Progressions* reveals the opportunities and challenges you may encounter in coming weeks, months, and years.

This program generates exciting reports that can help you make the right choices at the right time and avoid unnecessary stumbles and pitfalls as you proceed through the maze of life. *Life Progressions* reports offer direction and guidance to keep you on a successful path to realizing your full potential.

Our collaborator on this project was Ms. Sophia Mason, an acknowledged authority on progressions. Her book, *Delineation of Progressions*, is the textbook on the subject. *Life Progressions* uses the astrological tradition she

has created to provide complete, detailed reports as your life moves through different stages.

In this program:

- Choose from *Secondary MC*, *Daily Houses*, *All Solar Arc*, *Naibod MC*, *Naibod Arc*.
- Print monthly progressed positions for *Moon*, *Sun*, *Mercury*, and *Venus* as well as the *Ascendant* and *Midheaven*.
- Calculate for your birthplace, current, or anticipated location.
- Reports provide detailed interpretations for the progressed house cusps and planet positions in the houses. The program notes when planets change signs or go retrograde. These are automatically found and interpreted for you. In addition, the “cross aspects” between planets in your birth chart and those in the progressed chart are included.

Lunar Return

Professional Forecasting Report

We all know the moon is like a joker dancing through the natal chart each month, freely playing with and manipulating emotions and events. Sometimes the effect is harmless, even fun. Then there are those days for which you need to be forewarned or you may suddenly find yourself deeply in the middle of something or involved with someone you should have avoided. A personalized *Lunar Return* report provides you with an accurate “moon forecast” that will help guide you safely

through the month. With this tool in hand you can avoid the rocks and sail smoothly through even the roughest tide-tossed seas.

What’s in a Lunar Return report?

As the Moon speeds through the month, the minute hand of your Lunar Return moves through all 12 houses of both your natal chart and the Lunar Return chart, as well as hitting both sets of planets. There are 47 such events, and they repeat every month, but not at the same time or in the same order. Though the events repeat each

month, the “playing field” changes, thus the basic transits have a different role to play every month, while retaining their core implications. The individual transits begin with the symbolism of the degree at which they occur, followed by an interpretation of their general meaning, and finish with specific “issues and influences” which they may bring into your life. Finally, your personal Void-of-Course Moon periods will vary widely and are important timing factors in the daily decision-making process, so keep a close eye on them.

Professional Solar Return Report Software by Ray Merriman

Professional Forecasting Report

An enlightening look at your year ahead!

This is the first report writer to provide a detailed interpretation of the Solar Return chart, both as an independent chart and in relationship to the natal chart. The program provides a list of the planets’ positions in both the natal chart and the Solar Return chart, in addition to 50-plus pages of personal interpretation covering the entire year.

Solar Return Predictions is actually two programs in one: a report writer and a forecaster.

The report writer highlights specific themes and life issues in effect for any given year of your life. The second part of the

program forecasts significant dates for that year, based on the innovative prediction methods outlined in Mr. Merriman’s book. *This is the only program that gives you a complete listing and interpretation of the 80 dates during the year that involve progressed solar return angles.*

The *Solar Return Report Writer* interprets the six-week time bands of the progressed solar return Moon to the planetary positions and solstice points of one’s natal and solar return planets and angles. You get a thorough report of what to expect in the coming year – and exactly when. There’s nothing else like it!

Each Solar Return report contains:

- A highlighted overview of the year
- House location of the solar return Sun
- Conjunctions to house cusps
- Planets aspecting the horizon
- Planets relative to their natal position
- Significant time periods using the solar return progressed Moon
- The sun’s transits of solar return houses
- Progressed solar return angles
- Notes on keeping a journal
- Importance of solar return location

Professional Forecasting Software by Noel Tyl

Professional Forecasting Report

A report with a touch of the “Noel Tyl Magic”

Most astrologers know the ancient method of Solar Arcs, and many practice the technique in their work with individuals. Solar Arcs reveal to us the major milestones of people’s lives. It is a fact, indeed, that longitude degree-distances separating two planets in the cart or, especially, one planet from an angle give precious indications about important events in life, these events being of

psychological or physical nature, or referring to turning point, successful periods or misadventures on a professional level. My own experience of more than 25 years has confirmed to me the resourcefulness of this very easy method to point out the essential moments of our life path. We astrologers have to get beyond the more or less unconscious way we have of thinking that a simple method

(in its calculations) of forecasting can only be false and that a more complicated method is by definition the more accurate.

Noel Tyl is one of the world’s foremost astrologers, and probably the most prolific. He has authored dozens of textbooks and organized many classic anthologies of astrological opinion and expertise over three generations.

Astro★Carto★Graphy® Explained *Professional Relocation Report*

Astro★Carto★Graphy Explained may be the most powerful tool available in helping you maximize your opportunities and use all of the astrological influences around you to your advantage.

Location, location, location. That's a chant that people assigned the responsibility of determining the site of a new store or office to live by. They understand that where you locate yourself is often an incredibly important factor in determining success. The same is true for individuals. Your luck, experiences, and the options available to you can vary radically from one geographic location to another. Jim Lewis intuitively understood that fact and devoted his life to developing astrological techniques that would identify the influences, opportunities, or obstacles that might exist for you in a particular location.

Applied ACG

Jim understood that to suddenly pick up and move to some spot on the planet be-

cause its influences are favorable isn't an option for most people. Thus, when he began his collaboration with Matrix, he sought a wider application of his techniques and broadened the parameters of the software to help interpret and understand how to **use the astrological influences of any location** to our best advantage.

Being a perfectionist, Jim went even further as he developed and refined his *Astro★Carto★Graphy Explained*, defining how to measure and evaluate influences you might experience even in dealing with individuals or businesses in or from a particular location. **This is powerful information!** The advantage gained by possessing this knowledge is incalculable, but will be abundantly clear to you every time it is applied.

Astro★Carto★Graphy Explained isn't some fantasy treasure hunt for good fortune; this software will provide you or your clients

with accurate, insightful information that can be used in a wide variety of situations.

Recognizing the differences

Astro★Carto★Graphy Explained also recognizes that different people may react differently to the same astrological influences. For example, a woman with more traditional values may find that Mars and the Sun pose more problems than for their male counterpart. Similarly, men may find the Moon and Venus more challenging. People who tend to follow external authorities and believe in society's order as unchallengeable may find themselves more at home under Jupiter and Saturn lines, while individualists may thrive under Uranus, Neptune, and Pluto. The report is sensitive to the differences of our varied experiences and backgrounds.

Every location has something to offer you!

Professional Midpoint Report Software by Laura DesJardins

Software that lets you produce exceptional results with a click of the mouse.

Each Midpoint Keys report gives several levels of interpretation: emotional, spiritual, physical, and health.

A note from Stephen Erlewine on our *Midpoint Keys* software.

We astrologers are accustomed to using planetary pairs when they are found in aspect in a chart, but may find them difficult to use when they make no aspect. This is mainly due to the quantity of possible midpoints and the difficulty in selecting those that are significant. For most astrologers, time and experience help them learn to sort their way through all of the possibilities presented by an examination of midpoints.

With our new *Midpoint Keys* program, you can draw on the experience of a practicing professional astrologer with more than 30 years experience using midpoints in her daily work with clients. Each personalized report you create using *Midpoint Keys* provides you with information you can use to begin incorporating midpoints into your own chart analysis. This information can be invaluable for the student astrologer just learning to use midpoints, as well as for the professional astrologer seeking the extra details that midpoints provide.

Each report gives several levels of interpretation: emotional, spiritual, physical, and health. For this reason, *Midpoint Keys* reports are not intended for the non-astrologer. The astrologer can use a report in combina-

tion with their other interpretive tools and skills to determine the level of interpretation appropriate for the trigger events and the circumstances involved. Health associations, for instance, are made not as a prediction or a diagnosis, but as one of many possibilities and should only be considered when such physical or medical indications exist. *Midpoint Keys* demands more discrimination and understanding from the astrologer than many of our report writers that are intended for the client to read. *Midpoint Keys* is a program for astrologers.

Notice: Health references contained in Midpoint Keys reports are not diagnostic tools. Physical or psychological symptoms should be referred to the proper medical professional for evaluation, diagnosis, and treatment.

Just for Women by Gloria Star

Advanced Natal Report

Since the middle of the last century, the roles that women are asked to play have been changing and evolving. Today's woman is often expected to carry out the tasks of a career person, wife, mother, community leader, and more — all simultaneously. Figuring out where you want to put your energy, talents, and emotions can be daunting. Personal Collection

Friends & Lovers by Michael Erlewine Relationship Report

This is absolutely the best relationship software you'll find, but don't be fooled by the title. Our *Friends & Lovers* software lets you evaluate the "love" potential of any relationship or possible relationship, an invaluable tool all by itself, but this software does more; compare any two individuals in any type of relationship, family, friends, business associates (the boss) to discover where there is compatibility or potential conflict. *The reports are revealing and enormously helpful* in (or anyone for whom you prepare reports) getting the most out of every relationship. To create a report just enter the birth information of both people, choose the type of relationship, and click. Within seconds your report is ready to read onscreen or print.

Relating Potential by John Townley Relationship Report

What characteristics help you in a relationship? What personal quirks get in the way or cause difficulties with other people? How do other people really see you? The manner in which we approach people and how we manage our relationships can determine the quality of our lives. In love, friendships, even in business we are continuously interacting with and reacting to others. Success and personal fulfillment come with a clear understanding of how we relate, and *who* others see when they look at us. *Relating Potential* reports hold a mirror to our "relating selves" and offer guidance to help you achieve *maximum success in every relationship in your life*.

Simpáticos by Bernie Ashman Relationship Report

In every relationship there are actually three components, two people, and the relationship itself. If you are unfamiliar with the composite chart, astrologer Bernie Ashman probably describes it best when he says that it lets you "*look at the energy of the relationship*." What is revealed can be of exceptional value and bring a new level of intimacy to your love life, harmony to your family, more success in your career and business.

TimeLine by Michael Erlewine and Richard Nolle Forecasting Report

For nearly 30 years the "astrologically aware" have used our *TimeLine* software to help them take advantage of opportunities they may have otherwise missed, or to avoid unpleasant situations or events headed their way.

TimeLine Express Personal software lets you prepare detailed personal reports for any three month period you want to examine. Look forward to see what's ahead or take a look back for an explanation of an event or situation that you have already experienced — it's often very revealing and informative to see why something has happened to you and what influences were at play in your life. The way you can move back and forth through time using this software would make Einstein envious.

Sky Log by Steven Forrest Forecasting Report

Think of *Sky Log Express Personal* report software as your own astrological weather station, giving you an accurate forecast of planetary influences in your life, when they will begin, their intensity, and the impact they may have, all in an easy-to-read language that you don't have to be an astrologer to understand or use. *Sky Log* reports show the amazing intuitive understanding of the transiting chart that has made Steven one of the most sought after counseling astrologers of the day. *This software will become one of your favorites.*

Life Progressions by Sophia Mason Forecasting Report

The physical, mental, and emotional changes we experience in life can be predicted by carefully observing the progression of our natal chart through time. This exceptional addition to our *Win★Writer Express* reports collection *reveals the opportunities and challenges you may encounter in coming weeks, months, and years*. *Life Progressions* produces exciting reports that help you make the right choices at the right time and avoid unnecessary stumbles and pitfalls. It's like having a life-map to success.

Lunar Return by John Townley Forecasting Report

The moon is like a joker dancing through the natal chart each month, freely playing with and manipulating emotions and events. Sometimes the effect is harmless, even fun. Then there are those days for which you need to be forewarned or you may suddenly find yourself deeply in the midst of something, or involved with someone, you should have avoided. The *Lunar Return* report provides you with *an accurate, personalized "moon forecast."* With this tool in hand you can avoid the rocks and sail smoothly through even the roughest seas.

Solar Return by Ray Merriman Forecasting Report

Forget traditional New Year's resolutions! This software can show you the REAL beginning of your personal new year (or anyone for whom you want to run a report) and help prepare you to *take advantage of every opportunity presented to you* during the upcoming months.

Our *Solar Return* software gives you a detailed advance look at the tone and temper of your upcoming year. It also *shows you specific dates of significant events and influences you will encounter* as you proceed through your new year. Now that's a powerful bit of information!

your personality and behavior that other astrological methods are not able to identify.

ASTROLOCALITY MAGIC

AstroLocality Magic presents a new synthesis of several relocation methods into a new system. With unusual clarity and simplicity, the author explains the theoretical foundations for this new system. The concept is so new that anyone with an interest in astrology, from beginner to practicing professional, will find this book to be enlightening. The material is presented as a personal story that is so intriguing and captivating that you are likely to find yourself fully engrossed from cover to cover.

The formula presented is remarkably simple, and yet it has eluded astrologers until now. The analysis is essentially a marriage of the Astro-Map, a product of western 20th century astrology, with the 9th harmonic chart, also known as the navamsa chart in ancient Vedic astrology. Although the methods may at first sound arbitrary (why 9th harmonic rather than other harmonics) the author presents a thorough explanation of why these particular methods are important.
