MATRIX PRODUCTS VERSION 6 RELEASE!

GOOD NEWS! After more than two years of very hard work, we now have very good news for all of you. We are very happy to announce that we are now shipping **VERSION 6** of all of the main Matrix programs: Win*Star, Blue*Star, Horizons, Day*Watch, Matrix Search, Winning Times, and Win*Writers.

All software industries must keep up with technological advancements. There is a steady stream of hardware improvements, new versions of operating systems, and new information tools. Our programmers have been busy digging into the foundations of the software code and updating and improving the code so that it is compatible with the latest technology. This process was not easy and requires long hours of hard work and persistence. The hard work has paid off! Version 6 is now available!

If you own Matrix programs, you know that the programs are beautiful, elegant, innovative, flexible, and powerful. Now they have been renovated to be easier to install and work in a more stable and reliable manner with all versions of the Windows operating system.

A year ago Version 5 was released but we did not send a newsletter about it. We thought that Version 6 would be ready within a few months and we did not anticipate that it will take a year to finish the work. But at last we are now sending this news to all of you that we have finally finished Version 6.

IMPROVEMENTS IN VERSION 6:

Incompatibility issues with Windows 8, 8.1, and 10.0 have been resolved. The programs can now be installed and they run beautifully and are stable on all new Windows operating systems. All bugs that have been reported have been fixed. Most importantly, the biggest improvement is the improved time zone and daylight saving time tables. These new tables include thousands of corrections, as well as changes to laws that have been made in recent years, found by astrologers and researchers around the world. Every year dozens of countries change the dates when daylight saving time is observed. You will be able to update your software regularly to include these changes. Also, the Win*Star Standard, Win*Star Extended, and Win*Star Pro programs now have an improved Help System.

When you run Version 6 of the Matrix programs you may not notice many differences from the old programs. There will be a few things that you may notice such as upon exiting the data entry screen, you will be notified if the time zone and DST are not correct for this birth data. You may notice other minor helpful changes. Although the improvements are not obvious, it is what is under the hood so to speak that has changed. The improvements made help ensure that the programs run more smoothly and reliably, especially with the latest hardware and operating systems.

TAROT Programs: There are also new versions of the Tarot Personal and the Tarot Commercial programs. There are no new features. The programs have been updated to work with the latest versions of the Windows operating system.

SPECIAL UPGRADE PRICES:

- Upgrade up to 4 Win*Writers to Version 6: 15% discount
- Upgrade 5 or more Win*Writers to Version 6: 30 % discount
- Purchase new Blue*Star Personal or Pro: get one FREE Quick Studies

All programs can be downloaded. You can skip the cost of shipping the programs by downloading the installation programs.

Upgrade Prices:

The list of upgrade prices is too long to include here. To see upgrade prices, visit our web site:

- www.AstrologySoftware.com
- then click on “On Sale Now”
- and then click on “Upgrade Prices”.

This list of upgrade prices has not been updated and still refers to Version 5 and some arcane product codes. You can call or e-mail us to clarify the prices if they are unclear. we apologize for the inconvenience. We plan to update this website page soon.

OTHER NEWS:

Partner Program Discontinued: The Partner Program was developed many years ago and was created to help astrologers make money without having to purchase the software. After investing considerable time and money on attempting to stabilize the online software that provides this software, we decided that we need to discontinue this service until we have the resources to revive it. We apologize for the inconvenience and it saddens us to discontinue this service, but we do not want to offer you a service that does not function smoothly. For those of you who still have the partner site posted, we suggest that you now remove it from your web site.

Registered User Site Discontinued 7 Years Ago: Many years ago a "Registered User" site was available to owners of Matrix Software. This site allowed you to view what programs you own and check for updates. A login ID and password were required to enter this site. This service was discontinued 7 years ago but some of you ask why we have discontinued it. This service was discontinued about 5 years before the merger of Matrix Software with Cosmic Patterns Software. We looked at the software code to see if we could revive it but it is not feasible to do so. If you still have the old link to this site and tried to log in using your assigned ID and password it will not work.

Contact us by e-mail or by phone if you need help with your programs instead. We have a very friendly and very knowledgeable technical support team. Don't be afraid to contact us, we will be happy to hear from you and to help you.

UPDATES VERSUS UPGRADES: We use two terms that are similar: **Updates**, and **Upgrades**. Updates contain bug fixes and corrections only and they are free, while Upgrades are new versions and new releases and are not free.

SOFTWARE UPDATES & TECHNICAL SUPPORT: Virtually all software, no matter how rigorously tested, has some bugs. When we hear about any problems or bugs in any of our programs we fix the problem and put the update on our website. Let us know when you encounter a problem. Typically our first goal is to duplicate the problem. If we can duplicate it, we can fix it and upload an update program so that you have the corrected program. Other owners of the software can also run the update to get the correction. Our highest priority is to make sure that programs are running smoothly and bug free. We work on new features and products only when known problems have been fixed.

Click on this link for more information on how to contact us:

<http://www.astrosoftware.com/cpnew/software/support.html>

Thank you very much for your support! We are now heading into the holiday season. Be safe, enjoy the company of family and friends, and let's all be grateful for the blessings in our lives.

Sincerely,

Fei Cochrane, President
